

PeopleSoft Country Extension for Germany

PEOPLESOFT COUNTRY EXTENSION FOR GERMANY

KEY FEATURES

- Global HR Processing
- Statutory and Legislative requirements met
- Deploy software globally, store data centrally
- Contract administration

KEY BENEFITS

- Lower Total Cost of Ownership
- Compliance with Statutory and Legislative requirements

Managing your workforce globally often requires region or country specific features and functions in Human Resources. Oracle's PeopleSoft Enterprise Human Resources applications help make this possible. Being compliant with HR regulations is essential.

With PeopleSoft Enterprise country extensions, you have complete control over all aspects of your local HR operations, including statutory reporting requirements.

The foundation of Oracle's PeopleSoft Enterprise country extension products is Oracle's PeopleSoft Enterprise Human Resources application – a state-of-the-art, internet-based payroll solution that is built on a truly global architecture.

The benefits of this architecture include streamlined application maintenance (because there is one core product) and easy deployment and management across borders (because the information is in one place).

Country Extension Content

Each country extension consists of statutory and customary rules in Human Resources.

Human Resources

In order to best support our customers, we often create country-specific features within our Human Resources product.

PeopleSoft Country Extension for Germany provides features and functionalities that assist our customers in meeting statutory and legislative requirements in Germany like DIMONA notifications, contract administration, etc
