

# Protect Your Global Supply Chain with

# Oracle Quality Management Cloud

How prepared are you to compete in today's world of increasing regulations and rising costs of quality?

## THE CHALLENGE: UNIFY EVERYTHING QUALITY

### More Silos, More Problems

Most quality management software applications require high-cost integrations or you risk further detaching quality-related information and processes from core enterprise systems and the supply chain.

**40%**

of companies are struggling with quality due to fragmented systems and data sources<sup>1</sup>

**67**

is the number of quality applications throughout the world one company struggled with before asking for help<sup>1</sup>

**35%**

of companies said product quality does not meet their customer expectations<sup>2</sup>

**21%**

of products being delivered fail to meet customer needs (that's more than 1 in 5!)<sup>2</sup>

## How can you achieve End-to-End Quality Management in this type of environment?

## THE BENEFITS: HIGHER QUALITY FOR LESS COST

**27%**

lower cost of poor internal quality

**10%**

lower cost of poor external quality

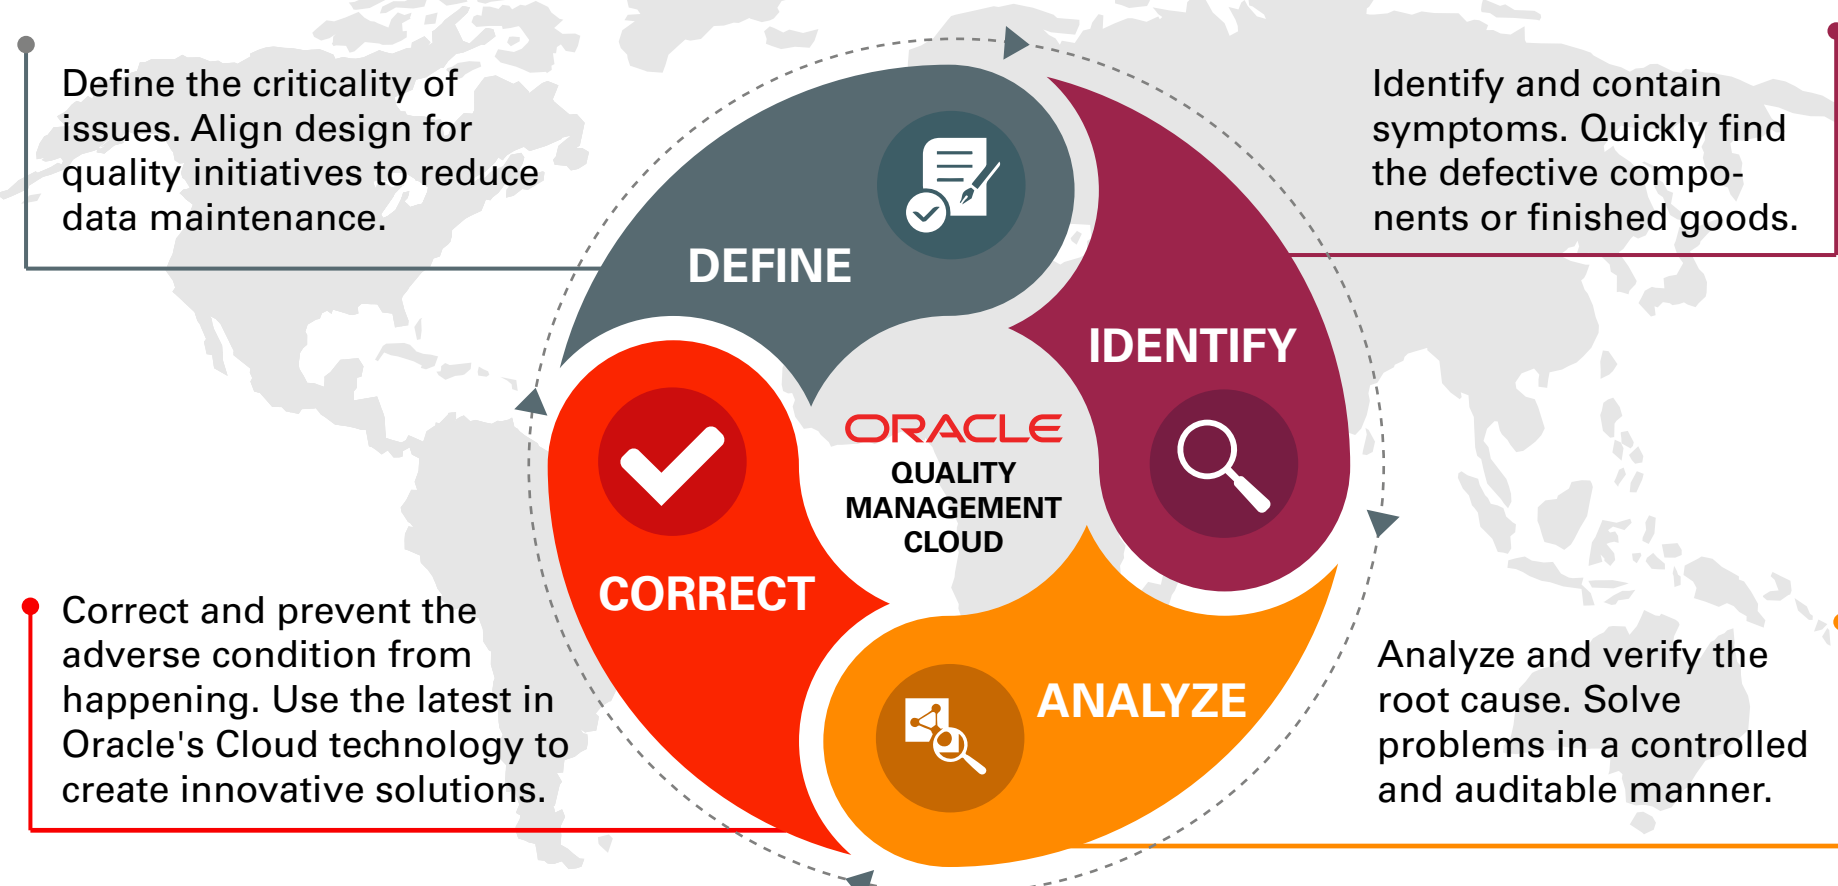

**21%**

more successful new product introductions
