ALL CLOUD, or SOME CLOUD...WE HAVE A PATH FOR YOU

Thousands of companies rely on Oracle Cloud every day around the world.

Some take an **“Enterprise” Cloud Path**. Some adopt a single pillar such as HCM Cloud, or even a multi-pillar strategy such as HCM Cloud and ERP Cloud.

Others choose a **“Pillar” Cloud Path**. For instance, within our HCM Cloud, many start with just Talent Cloud to work seamlessly alongside their existing PeopleSoft apps. Others adopt both our Global HR Cloud and Talent Cloud. And then add Payroll later.

AVOID STAGNATION

Why move to the cloud? The cloud can truly transform the way you do business with customers, collaborate with partners, and communicate among employees.

This is why Oracle continually invests to offer a full suite of CRM, ERP and HCM Clouds, and extends its industry solutions to the cloud.

But without a proper cloud strategy, your company or organization could be on the road to stagnation. A modern business requires a modern cloud and a modern cloud strategy. It is not too late to get started.
