ORACLE ENTERPRISE ARCHITECTURE
A PRACTICAL APPROACH

PEOPLE, PROCESS, PORTFOLIO
• People – Oracle expert advisors certified in Oracle and industry EA standards
• Process – practical and proven architecture development process focused on ‘just enough, just in time’ and actionable plans
• Portfolio – trusted artifacts including business models, reference architectures, Oracle best practices

KEY BENEFITS
• Reduce risk and get cloud right the first time by utilizing best practices and expertise to take the Oracle stack into a cloud environment
• Accelerate cloud adoption and get the business value faster with a comprehensive cloud blueprint and practical roadmap
• Leverage an architecture viewpoint that spans from applications to disk – and across public, private and hybrid deployment models

ORACLE CLOUD BLUEPRINT AND ROADMAP SERVICE

Having a clear cloud strategy and roadmap is critical to delivering the agility, innovation and accountability that your business stakeholders expect. Whether your organization is beginning to consider its options for cloud, or you are already in a cloud environment and optimize its value, Oracle experts can help you quickly plan the path that is right for your business. Oracle Consulting provides the clarity, expertise and operational best practices to make cloud work for your business.

A Business-Driven, Practical Approach to Cloud

Oracle understands that cloud adoption is first and foremost a business decision. Led by an Oracle Enterprise Architect, the Oracle Cloud Blueprint and Roadmap Service aligns your business objectives and goals with an architecture strategy and practical roadmap to accelerate adoption of cloud for your environment.

Whether your objective is to develop an enterprise-wide strategy that spans across the organization or to develop a targeted plan to provision Infrastructure as a Service, Platform as a Service or Software as a Service, this service provides the upfront capabilities assessment, architecture, planning and governance to get you on the right path.

Oracle Enterprise Architects use a business-driven approach to architecture supported by practical experience and proven reference architectures for faster cloud adoption with less risk.

Key Activities:
• Deliver a series of workshops over a 6 week period with recommendations to get you started on your cloud journey
• Conduct an accelerated assessment of your cloud readiness and maturity
• Identify key business goals and focus areas for your cloud strategy
• Define a capabilities-centric architecture vision for your cloud strategy
• Deliver a practical roadmap with milestones to quickly adopt cloud computing
• Offer recommendations for a future path depending on your business need (enterprise-wide cloud strategy or targeted scope such as IaaS, PaaS)

Cloud Expertise and Experience

Oracle offers comprehensive cloud solutions – from software and hardware systems that are engineered and optimized to work together at every level for secure, high performance private clouds, to enterprise-grade application and platform services with the Oracle Public Cloud.

Our consultants and architects have the portfolio expertise and real-world experience with cloud and shared services architectures to get you to the right solution for your business - faster and
