

Oracle Consulting Upgrade for Oracle Business Intelligence Suite

Oracle Business Intelligence Suite Enterprise Edition ("OBISEE") and Oracle Business Intelligence Suite Foundation Edition ("OBISFE") solutions are key components of an organization's success. It is critical to realize the highest value from software investment, now and in the future. Over time, organizations change, creating new demands for information. As these changes and requirements accumulate, solutions designed to meet original business requirements may no longer be aligned with current and future requirements. Oracle Consulting Upgrade for Oracle Business Intelligence Suite is designed to help streamline your upgrade implementation. This service provides your organization with greater agility, reduced costs and reduced risk.

KEY FEATURES

- Workshops ensure the upgrade plan takes into account your unique needs
- Recommendations to effectively address process or infrastructure changes needed for upgrade
- Optimized OBISEE and OBISFE implementation.

KEY BENEFITS

- Effectively leverage new and existing OBIS functionality, such as mobility and visualization options
- Develop a low-risk approach for a value driven OBIS upgrade
- Optimize your existing infrastructure to ensure performance and reliability
- Derive the highest level of business value from your solutions

RELATED PRODUCTS

The Oracle Business Intelligence Suite Upgrade Service also applies to other OBISEE and OBIA modules including:

- Financial Analytics
- Procurement and Spend Analytics
- Human Resources Analytics
- Project Analytics
- Service Analytics

A Business-Driven, Practical Approach to OBIS Upgrade

Oracle Consulting can help you streamline your upgrade efforts by providing a team of highly experienced Oracle Consulting experts and a refined process to upgrade your OBIS software to version 12c. Utilizing our functional, integration and infrastructure expertise, these experts provide a comprehensive and low risk option for you. Oracle Consulting Upgrade for Oracle Business Intelligence Suite focuses on identifying the current components of your OBIS deployment, then managing the upgrade process from end-to-end so you can begin taking advantage of enhanced performance, control and expanded visualizations of your OBIS systems. We follow a proven methodology:

- **Upgrade Requirements:** Based on upgrade scope, Oracle Consulting experts leverage proprietary questionnaires in conjunction with onsite workshops to assess current state of your OBIS solutions. This "triage" exercise is designed to identify and prioritize any anticipated upgrade challenges. The completed questionnaires in conjunction with upgrade requirements provides these experts with information needed to deliver a complete upgrade to OBIS 12c for all OBIS solutions.
- **Upgrade Planning:** Utilizing the information gathered, Oracle Consulting experts produce an upgrade plan. This report details findings, including any current solution challenges, functional and configuration elements that may prevent realization of the OBIS upgrade. These experts identify high-impact areas and provide recommendations to effectively address any process or infrastructure changes that could take place as part of the upgrade. The design plan spells out exactly what needs to be done and helps build confidence with upcoming changes. Furthermore, recommendations are made for enhancements to your current system that would allow you to take
