ORACLE ARCHITECTURE ADVISORY SERVICE

The Oracle Architecture Advisory Service provides practical architecture planning and recommendations to jumpstart adoption of your new Oracle technology investment, and simplifies implementation for projects crossing multiple domains. This service provides you with an on-site Oracle Enterprise Architect who has expertise across the entire Oracle portfolio. This Oracle expert will provide the guidance you need for successful adoption of your enterprise solutions. The result - a future state architecture and actionable roadmap that leverages your current IT environment and Oracle best practices.

Offering Overview
The Oracle Architecture Advisory Service provides:

- An Oracle expert advisor who will help align your IT strategy with business initiatives
- A proven architecture methodology that is designed to deliver a doable, realistic roadmap
- A collection of EA tools and artifacts to ensure best practice implementations

The objective is to ensure cohesive, best practice architectures spanning multiple domains – that are unique and specific to your enterprise’s context.

Enterprise Class Projects
Oracle customers embarking on the following initiatives have found great value in this service.

- Engineered Systems
- Database Consolidation
- Private Cloud
- Security Architecture
- Governance and ARB
- Data Center Re-engineering
- Server Consolidation
- Portfolio Rationalization
- Information Architecture
- Applications Architecture

Offering Details
The Oracle Architecture Advisory Service provides a dedicated on-site Oracle Enterprise Architect for six weeks or more. The architect will leverage Oracle’s Architecture Development Process with a particular focus on the following:

- Review your current business operating model and IT structures and processes
- Partner with you to establish a future state architecture leveraging Oracle’s reference architectures, capability maps, and best practices
- Provide guidance and recommendations on governance practices for the rollout and adoption of your future state architecture
WHY ORACLE CONSULTING

- Leading Expertise: Oracle’s own experts providing thought leadership for every Oracle solution.
- Broad Coverage: “End-to-end” lifecycle services across the entire Oracle product footprint.
- Global Scale: 13,000 Oracle experts in 145 countries, serving over 20 million users.
- Unified Methodology: Based on industry standards, high quality results across complex projects.
- Flexible Delivery: Onsite, offsite, and offshore, along with innovative solutions such as Expert Services and Architecture Services.

RELATED SERVICES

The following related services are available from Oracle Consulting:
- Oracle Architecture Service Center
- Oracle Cloud Readiness Assessment
- Oracle Cloud Architecture Advisory Services
- Oracle Exadata and Oracle Exalogic Start-Up Pack(s)
- Oracle Enterprise Application Strategy and Roadmap
- Oracle Information Management and Governance

- Develop a strategic roadmap and action plan across technology, people and processes; working with your team to outline next steps and prioritize recommendations
- Assist you in identifying roles, staffing plans and skill-set readiness plans to expedite execution
- Proactively identify risks, inhibitors, success factors and key performance indicators early on for risk mitigation and on-going steering

Offering Benefits

The Oracle Architecture Advisory Service will help you jumpstart your Oracle adoption, reduce risk associated with complex technology projects, and support your project teams with the right Oracle expertise to get your implementation started quickly. Benefits include:

- A consistent future state architecture for your Oracle and IT portfolio that spans technology and organizational domains
- Development of an actionable architecture roadmap and identification of priority areas to quickly demonstrate value to the business
- Identifying architecture pitfalls upfront to prevent operational disruptions to critical business functions

How We Are Different

Part of the Oracle Consulting team, Oracle Enterprise Architects have proven experience in managing complex IT initiatives, and broad and deep expertise across Oracle’s portfolio. Oracle takes a practical, approach to Enterprise Architecture and uses global best practices to help customers realize a faster return on their IT investments.

Getting Started

Leverage Oracle’s methods, tools, and extensive experience with customer implementations across diverse industries and geographies.
