

Oracle Acquisition Platform for Government Agencies

Cast Your Vote:

What's your organization's biggest challenge?

- A. Maintaining existing IT infrastructure to support mission-critical systems.
- B. Planning and implementing IT road map to deliver new technology and services.
- C. Securing budget and chasing approvals to accomplish items A and B.

FINANCIAL STEWARDSHIP

Because Oracle technology plays such a central role on the IT side of your organization's mission, Oracle is committed to helping you on the financial side as well. The **Oracle Acquisition Platform** is a customized and flexible acquisition approach for any combination of products — including integrated cloud applications, platform services, and engineered systems — that help you quickly and efficiently meet the full spectrum of modern business needs for your organization.

How Oracle Can Help

TRUSTED ADVISORS

Averaging more than 20 years of experience in finance, Oracle's financial experts work closely with you and your team to design the optimal payment solution, enabling you to acquire the technology you need, today. In fact, we've delivered more than \$20 billion of strategic IT investments for more than 15,000 clients around the world.

FLEXIBLE SOLUTIONS

Simple, flexible, and creative payment options are available for Oracle software, hardware, consulting, and support, as well as third-party offerings. Better yet, you won't be burdened with complicated paperwork, because Oracle payment plans use streamlined processes and simplified documentation.

IMMEDIATE BENEFITS

When you work with Oracle, you can:

- Spread costs over a 12-60 month term with monthly, quarterly, semi-annual, or annual payments, or on a customized schedule.
- Access future budgets to pay for technology that's needed today.
- Align cash outflows with the projected benefits to accelerate and optimize the project's payback.
