

ORACLE®

Oracle and Sun: Application Server Strategy

Hasan Rizvi

Senior Vice President, Oracle Fusion Middleware

January 2010

The following is intended to outline our general product direction. It is intended for information purposes only, and may not be incorporated into any contract. It is not a commitment to deliver any material, code, or functionality, and should not be relied upon in making purchasing decisions. The development, release, and timing of any features or functionality described for Oracle's products remain at the sole discretion of Oracle.

Oracle & Sun Application Servers

Oracle Strategy Webcast Agenda

- ✓ Oracle's Strategy & Acquisition Approach
- ✓ INNOVATE: Oracle's Application Server Strategy
- ✓ INTEGRATE: Combined Oracle-Sun Solutions
- ✓ COLLABORATE: Engaging with Oracle

Oracle's Acquisition Approach

Principles of Integration

- Clear, well-defined integrated product strategy
- Fast, smooth transition
- Protect and enhance customer investments
- Increase overall R&D investment
- Systems and support continuity
- Constant communication

Complete. Open. Integrated.

The Oracle Stack Advantage

- Standard components
- Easier to deploy and manage
- Better performance
- Greater security
- Higher reliability
- Lower cost of ownership

**We're Changing the Way You Buy,
Run and Manage Business Systems**

Oracle Fusion Middleware

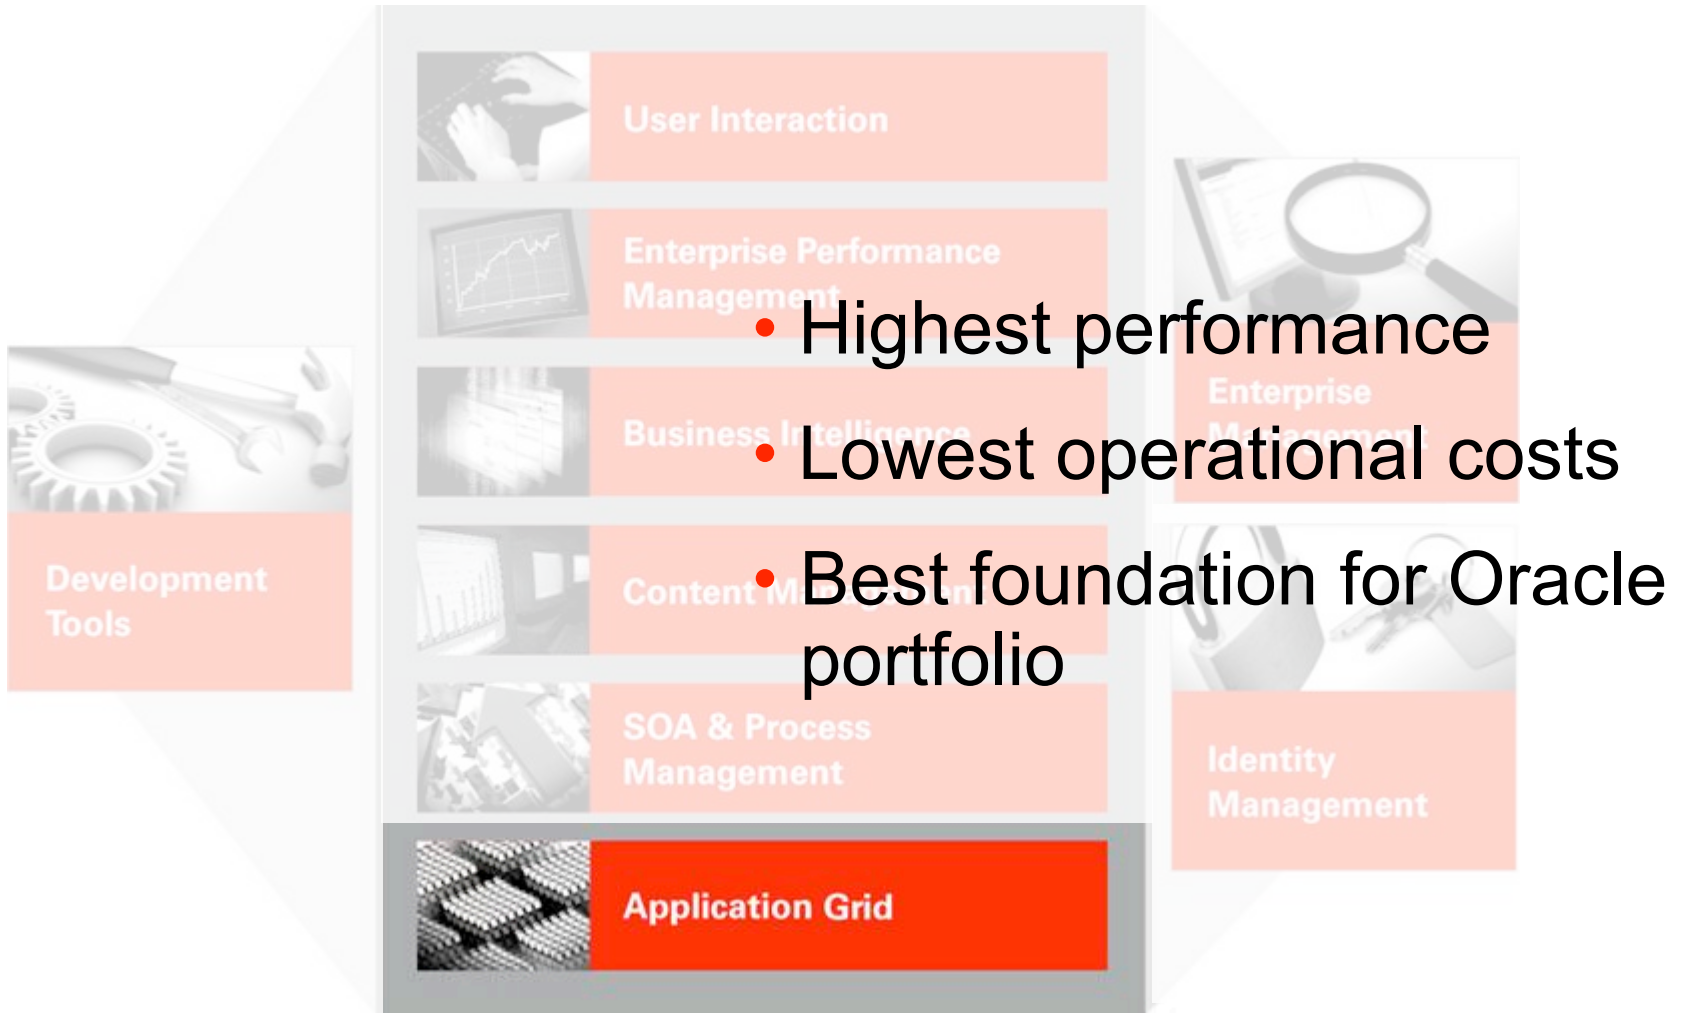

Complete. Open. Integrated.

We are going to focus on the **Application Server products**, which are part of the “Middleware” layer of the Oracle Stack

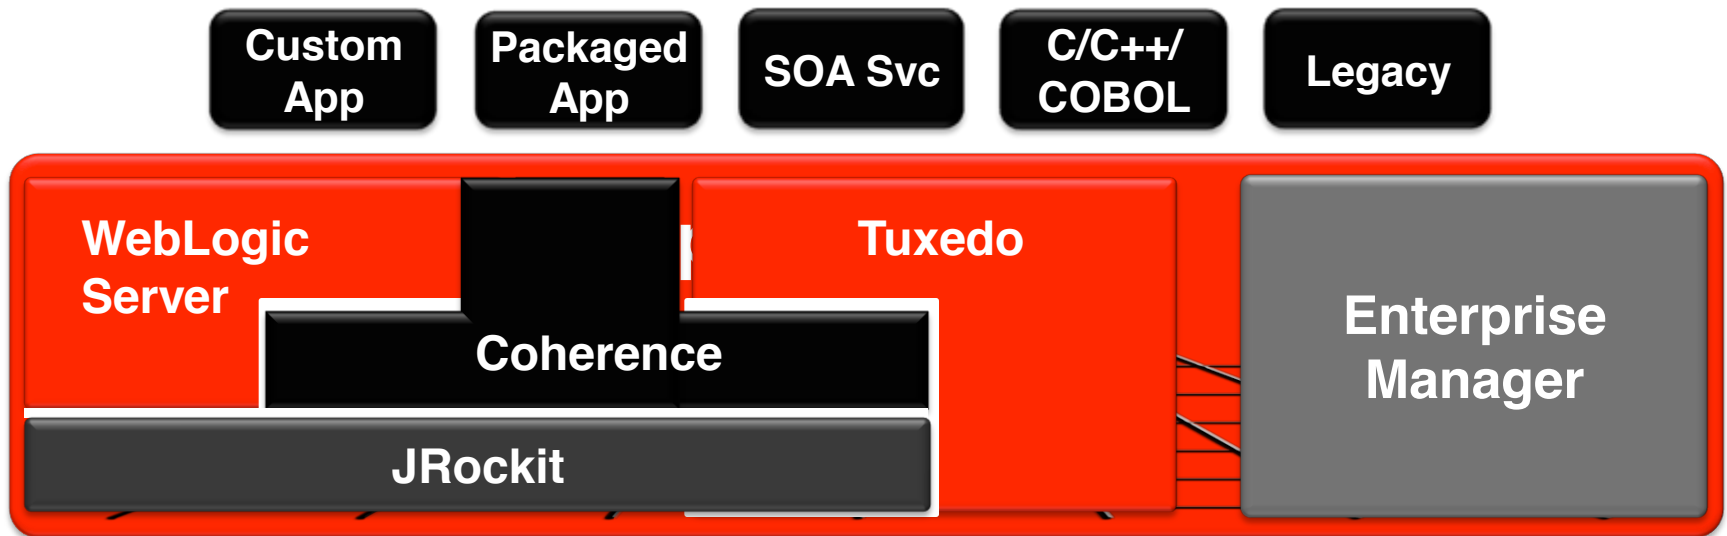

Application Grid

Oracle's Product Strategy

Oracle Application Grid

Current Offerings

**Lowest
Operational
Costs**

**Proven to
Outperform**

**Best for Oracle
Portfolio**

Sun Web & Application Server Portfolio

Current Offerings

Sun GlassFish
Enterprise Server

Sun Java System
Web Server

Sun GlassFish
Web Space Server

Sun GlassFish Web Stack

Product Strategy

INNOVATE AND INTEGRATE

Application Servers

Combined Oracle-Sun Solution Focus

- GlassFish continues as the Java EE reference implementation and as an open source project
- Oracle's strategic application server, Oracle WebLogic Server, together with GlassFish, provide world class Java EE infrastructure
- GlassFish Enterprise Server and WebLogic Server expected to share core components
- HotSpot and JRockit become Oracle's strategic JVMs
- Java System Web Server part of new Oracle Web Tier offering
- GlassFish Web Stack maintained for existing customers
- GlassFish Message Queue remains as the GlassFish messaging infrastructure

Solution Focus: WebLogic - GlassFish

- High productivity and agility for **development**
 - Modular download, install
 - Lightweight configuration, startup
 - Fast, incremental update
 - Well instrumented for tuning
 - Easy transition to production
- Enterprise dependability and responsiveness for **production**
 - Industry-leading reliability, availability, scalability
 - #1 in performance
 - Best management instrumentation and automation
 - Application grid architecture for dynamic resourcing and cloud

Application Servers

Licensing, Support and Maintenance

- Oracle plans to commercially offer GlassFish Enterprise Server and Java System Web Server
- GlassFish will continue to be supported and maintained for an extended time period for customers current on support

Release*	Premier Support	Extended Support	Sustaining Support
GlassFish 2.1	Jan 2013	Jan 2015	Indefinite
GlassFish 3.0	Dec 2014	Dec 2017	Indefinite
Java System Web Server 6.1	Aug 2013	Aug 2015	Indefinite
Java System Web Server 7.0	Mar 2014	Mar 2017	Indefinite
GlassFish Message Queue 4.4	Dec 2014	Dec 2017	Indefinite
GlassFish Web Stack 1.5	Aug 2012	Aug 2014	Aug 2014

* Only select releases shown - full details published at:
<http://www.oracle.com/support/lifetime-support-policy.html>

Sun Portal Technologies

Oracle's Product Strategy

- Oracle WebCenter is Oracle's strategic portal offering
- GlassFish Web Space Server
 - Oracle plans to continue supporting GlassFish Web Space Server and plans to provide an upgrade path for Web Space Server to WebCenter
 - Sun's IP for Web Space Server will be released into the Liferay open source community
- Sun Portal Server:
 - Oracle continues to support Sun Portal Server
 - Oracle plans to provide an upgrade path for Sun Portal Server to WebCenter

Sun Portal Technologies

Licensing, Support and Maintenance

- Existing GlassFish Web Space Server and Sun Portal Server customers can trade in their perpetual licenses for credit against license migration to Oracle WebCenter Suite[†]
- Sun Portal Server will also continue to be supported and maintained for extended time periods [†]

Release*	Premier Support	Extended Support	Sustaining Support
Sun Portal Server 6.x	Mar 2010	Mar 2013	Indefinite
Sun Portal Server 7.x	Jan 2012	Jan 2015	Indefinite
Glassfish Web Space Server 10.x	Jan 2012	Jan 2015	Indefinite

* Only select releases shown - full details published at:
<http://www.oracle.com/support/lifetime-support-policy.html>

[†] conditions apply including but not limited to minimum license fees to migrate and customer must be current on technical support—

Engaging with Oracle

COLLABORATE

Application Servers

Engaging with Oracle

- GlassFish open source projects thrive
 - On-going commitment by Oracle to java.net and other open source projects that make-up GlassFish
- Continued collaboration
 - Blogs – The Aquarium
 - Enhancements – java.net
 - GlassFish Wiki

[GlassFish](#) » [Community](#)

[Download](#)

[Communicate](#)

[Contribute](#)

[Glassfish Wiki](#) » [CommunityDocs](#)

The Aquarium

A blog that has nothing to do with fish ...
... but everything to do with Open Source Java EE, XML, SOA and more ...

Application Servers

Engaging with Oracle

- Unified Support and Consulting
 - Single point of contact with deep expertise in both Sun and Oracle products
 - Same Sun support experts with an average tenure of 10 years
 - Same online Sun Support resources, tools and alerts
 - Same “tuned and tested” software updates
- Oracle Technology Network (otn.oracle.com)
 - Forums, Articles, Tutorials, Sample Code
- For more information and collateral
 - Oracle.com/AppServer
 - Oracle.com/goto/ApplicationGrid

Oracle and Sun Application Servers

Oracle Strategy Webcast Summary

- GlassFish joins WebLogic Server in the best Java EE application server offering in the industry
- GlassFish continues as *the* Java EE reference implementation
- HotSpot and Java System Web Server augment Oracle's application grid portfolio to provide the most comprehensive, integrated, and open middleware foundation
- All existing customers current on support will be fully supported according to their existing agreements
