

# Increase Effectiveness of Construction Payment Management

## Improved Control

- Visibility into billing, payment, and compliance status
- Standardized, owner-selected documents
- Single database for all project users/data

## Increased Efficiency

- Fewer payment delays, stronger working relationships
- Expedited owner invoice, documents
- Creation of correct and consistent documents

## Risk Reduction

- Current unconditional lien waivers
- Payment holds tied to compliance status
- Sub-tier lien waiver tracking and placement

**Oracle Textura Payment Management** is a web-based collaboration solution that automates and streamlines construction payment management processes — enabling general contractors to improve outcomes for all project stakeholders in core payment process areas: invoicing, compliance management, lien waiver collection and tracking, and disbursement.

Owner/developers will benefit from their general contractors' use of Oracle Textura Payment Management in numerous ways, including better control, improved efficiency, and reduced risk.
