

Oracle Consulting Architecture Blueprint and Roadmap for Oracle Cloud

Developing a clear cloud strategy and roadmap is a critical component for delivering the agility, innovation, and accountability that your business stakeholders have come to expect. Oracle's industry-leading cloud offerings providing new options for building and managing business-critical applications and databases that businesses are moving quickly to consume. Oracle Consulting Architecture Blueprint and Roadmap for Oracle Cloud is designed to guide you on your journey to the public cloud leveraging leading practices and industry expertise to help identify your organization's Business/IT goals and align them with your cloud computing and integration strategies. Customers routinely turn to Oracle experts to make their move to the public cloud seamless and worry-free.

KEY FEATURES

- Comprehensive view of your cloud IT architecture aligned to your business objectives
- Comprehensive cloud architecture blueprint and roadmap
- Clear and actionable plan for migrating candidate application(s) and/or Oracle Database(s) to the Oracle Cloud

KEY BENEFITS

- Quick, cost-effective way to design a cloud architecture and roadmap for migration of application(s) and database(s) to the Oracle Cloud
- Accelerate Oracle Cloud adoption
- Focus on knowledge sharing ensures your IT team will better understand the process and technical modifications required to adopt and manage IT in the Oracle Cloud

A Business-Driven, Practical Approach to Cloud Architecture

Oracle experts conduct a series of workshops that aid in the development of an architecture blueprint, aligning your organization's overall business strategy with your public cloud computing initiatives. The output of these workshops is a migration roadmap that plans for on-boarding and migration of a candidate application and database to the public cloud environment. This service addresses the complexity, security, and integration challenges associated with migrating applications and databases to the public cloud.

Key deliverables:

- Workshop covering Oracle Cloud architecture
- Architecture vision for Oracle Cloud adoption aligned with your organization's overall business and IT cloud computing strategy
- Identification of recommended application and database candidates for deployment to Oracle Cloud Services
- Future state cloud architecture that provides strategies for adopting Oracle Cloud services establishing integration between your Oracle Cloud Services and on-premise environments, and managing and monitoring your organization's Oracle Cloud Services
- Roadmap with actionable recommendations to deploy and migrate the selected application and database candidate(s) to Oracle Cloud Service(s)
- Engagement summary report summarizing key findings, recommendations and next steps
