

# Oracle Consulting Rapid Start for Oracle Compute Cloud Service

*Is your organization struggling to define and provision infrastructure at the pace demanded by your development teams? Oracle Consulting created the Oracle Consulting Rapid Start for Oracle Compute Cloud Service to prepare your development teams to take full advantage of the Oracle Compute Cloud Service including rapid environment provisioning. Oracle Consulting provides the experience and leading practices to assist your development team in pivoting to the Oracle Cloud.*

## KEY FEATURES

- Prepare your IT team to leverage the Oracle Compute Cloud Service for rapid provisioning and monitoring of enterprise infrastructure services
- Provide a methodology and process for based on Oracle leading practices
- Demonstrate Oracle Compute Cloud Service features that support your enterprise needs

## KEY BENEFITS

- Jump start your Oracle Compute Cloud Service adoption with expert guidance and leading practices
- Demonstrate the value and benefits of subscription based IaaS to your organization
- Accelerate your organization's transition to Oracle Cloud Services and the realization of associated benefits

## Build Environments - Faster, Smarter, and more Efficiently

Oracle Consulting can help you realize the value of cloud computing faster and with less risk by leveraging our extensive experience, Oracle leading practices and proven delivery approach. Through a series of workshops and hands-on activities Oracle Consulting experts will demonstrate the Oracle Compute Cloud Service capabilities, options, features and benefits. We also provision and configure an Oracle Compute Cloud instance and demonstrate compute cloud capabilities by migrating a sample workload as well as configuring monitoring, management and connectivity to the environment. Oracle Consulting will conclude the engagement with a review of your on-premises infrastructure environments and identify candidates for deployment to Oracle Compute Cloud Service. Oracle Consulting will provide your team with the knowledge, processes, and skills to rapidly provision application infrastructure.

### Key Deliverables:

- Workshop to provide an overview of Oracle Compute Cloud Service capabilities, benefits and leading practices for provisioning.
- Workshop to review physical-to-virtual and virtual-to-virtual migration strategies.
- Workshop to review leading practices for monitoring, management, network connectivity and security.
- Provision and configure Oracle Compute Cloud Service instance(s).
- Demonstrate Oracle Compute Cloud Service capabilities by migrating a sample application.
- Engagement summary that includes next steps for improving cloud adoption and maturity within the organization.
