OracleVM Pricing Policies and Practices

Migrating from existing Virtual Iron Support Contracts

Customers wishing to transition from Virtual Iron support to Oracle VM support receive a "duration credit" for the remaining term of their Virtual Iron support contract.

Upon purchase of a new Oracle VM Support Contract ("New Contract"), Oracle will append the time remaining on an active Virtual Iron support contract ("Existing Contract") to the term of the New Contract. The "duration" credit may only be applied to systems currently supported under the Existing Contract. The Virtual Iron support services will be deemed terminated upon execution of this option.

For example:

You have an active Virtual Iron support contract with six months of the term remaining. You purchase a new one year Oracle VM support contract. The term of your New Contract will be eighteen months (twelve months new purchase plus six months duration credit) . The price of your New Contract will be based on the twelve month price for Oracle VM Premier.
