Don’t be fooled by the illusions
Oracle Enterprise Performance Management reveals the secrets behind the illusions so you can see the differences.

Fusion Cloud EPM
Oracle Enterprise Performance Management reveals the secrets behind the illusions so you can see the difference.

These illusions could end up costing you a lot of money!

Why Oracle stands out

- Flexible architecture
  - Package content and deep functionality tackles every need in EP
  - Functional breadth and depth with purpose, built modules and packaged content
  - Capabilities can be easily configured and quickly deployed to fit your needs

- Complete and comprehensive EP
  - Connect all planning across finance, HR, supply chain, sales, marketing, and other processes
  - Gain significant efficiencies and insights from major investments in areas such as predictive analytics, AI, machine learning and intelligent process automation
  - Realize key finance processes like cash forecasting by connecting EPM and ERP

5,500+ companies select Oracle Cloud EPM

"Oracle had the best well-rounded, holistic solution. We felt it was very important to move forward with a partner that could support all aspects. And not just bits and pieces."

Dan Hoppaid, EVP, Global Financial Services and Systems, Eaton

Gain the agility and insights you need to outperform in any market condition using Oracle Cloud EPM.
