Oracle Payroll for the United Kingdom

Oracle Payroll, an integral part of Oracle Fusion Cloud Human Capital Management, is a fully unified solution that enables you to comply and configure your payroll across the globe regardless of the industry, company size, or worker types. Oracle Payroll helps you simplify and automate your complex business processes with scalability, flexibility, and efficiency.

Work more efficiently
Redesign the way you work with automated Payroll Workflows and Dashboards that help you define important tasks and steps to confirm accurate processing of your payroll. Oracle delivers intelligent features to make your processes more efficient. The RetroPay feature provides an easy solution for post period adjustments to employees’ earnings and deductions based on pay rate changes, and benefit elections, so you can rest assured that your employees get paid what they’re owed—no matter when the event occurs. Then there’s also the full integration with HCM Data Loaders (HDL/HSDL) to streamline mass loads and updates. These features and many more simplify the overall payroll process and boost your productivity.

Get control over your business
Many organizations struggle with analyzing payroll information across multiple systems. It’s time consuming, and when data is finally pulled together, it’s typically outdated. Oracle provides pre-built and customizable analytics that provides readily accessible enterprise-wide data in real-time. It’s an easy-to-use tool designed specifically for you to quickly analyze your payroll business. Armed with more insight into your workforce operations, your teams are better positioned to make quick and informed decisions that drive a greater value to your business.
