

JD Edwards EnterpriseOne One View Reporting for Transportation Management

KEY FEATURES AND BENEFITS

- Empowers end users to design, create, run, and share reports to meet business needs
- Intuitive and powerful process that does not require complex skills
- Reduce the backlog of user requested reports with IT
- Enhanced real-time decision making through the use of interactive reports with lists, charts, graphs, and tables
- Intuitive, user-friendly reports designed to improve business productivity
- Easy access to any level of detail required to make informed business decisions using drill-down capabilities
- Real-time access to critical operational data
- Visibility into business information directly from JD Edwards applications
- Single reporting solution for all JD Edwards modules and custom applications
- Embedded administration and management of reports

Access to real-time data in an easy-to-consume format is no longer a luxury for employees; it is a necessity and an essential part of achieving operational excellence. One View Reporting enables users to access and personalize transaction data into lists, charts, graphs, and tables, thus simplifying the consumption of information. Casual and power users alike will appreciate the simple yet robust, integrated reporting with all JD Edwards EnterpriseOne applications.

Figure 1. One View Transportation Management

The JD Edwards EnterpriseOne reporting capabilities are designed to deliver personalized access to information critical to your business processes. One View Reporting is all about delivering the right data to the right person, right now. Clear and concise views over operational activities lead to more effective decision making and improved productivity. One View Reporting's intuitive interface empowers end users with the flexibility to create personalized transactional reports without the need for IT assistance.

One View Reporting for Transportation Management

One View Reporting for Transportation Management improves your insight into your everyday shipping needs. Users can perform an analysis of their shipping needs to ensure that their shipments and/or loads are on time, effective, and accurate. Users have visibility into freight spend and top carriers, along with information relating to the shipping and planning depots.

One View Transportation Management delivers a set of high-value reports to help keep your transportation shipments and loads on track. Reports include on-time shipments by shipment depot, shipment freight changes by shipment depot, shipment depot totals by year and month, shipment analysis, vehicle utilization by planning depot, load distance by shipment depot and carrier, package load analysis, and many others. Improve bottom-line performance for your shipping needs through detailed and summarized reports.

JD Edwards EnterpriseOne One View Reporting

JD Edwards EnterpriseOne One View Reporting enables end users to access data from simple to sophisticated reports using JD Edwards EnterpriseOne interactive applications with Oracle BI Publisher layout reporting and distribution features. One View Applications combine essential transaction data and master data, including associated descriptions and category codes, previously not available. Users can view data in the exact layout they want using all the advanced capabilities of Oracle BI Publisher. One View Reporting provides a large library of predefined reports designed to answer the most common business questions. Delivered reports can be personalized by end users as needed and additional reports can be defined without IT support. The complexity of data models, table joins, and business views are masked from the end user to ensure intuitive reporting experiences. One View Reporting provides users a simplified and clear view of the essential data necessary to effectively execute business processes.

The power of One View Reporting comes from the extensive number of applications, reports, and report components. These solutions address the most common and highly demanded business questions, enabling you to realize value from day one.
