Corporate Operations
Oracle

CEO Perspective

Safra Catz

Chief Executive Officer
Oracle

Q&A with Larry Ellison

Larry Ellison

Executive Chairman and Chief Technology Officer
Oracle

Safe Harbor Statement

Statements in this presentation relating to Oracle's future plans, expectations, beliefs, intentions and prospects are "forward-looking statements" and are subject to material risks and uncertainties. Many factors could affect our current expectations and our actual results, and could cause actual results to differ materially. A detailed discussion of these factors and other risks that affect our business is contained in our U.S. Securities and Exchange Commission (SEC) filings, including our most recent reports on Form 10-K and Form 10-Q, particularly under the heading "Risk Factors." Copies of these filings are available online from the SEC or by contacting Oracle's Investor Relations Department at (650) 506-4073 or by clicking on SEC Filings on Oracle's Investor Relations website at <https://www.oracle.com/investor>. All information set forth in this presentation is current as of October 20, 2022. Oracle undertakes no duty to update any statement in light of new information or future events.

Non-GAAP Financial Measures

To supplement our financial results presented on a GAAP basis, we use non-GAAP measures, which exclude certain business combination accounting entries and expenses related to acquisitions and other significant expenses including stock-based compensation, that we believe are helpful in understanding our past financial performance and our future results. Our non-GAAP financial measures are not meant to be considered in isolation or as a substitute for comparable GAAP measures, and should be read only in conjunction with our consolidated financial statements prepared in accordance with GAAP. Today's discussion may include certain non-GAAP financial measures.
