In this engaging discussion, we'll tackle a question of critical importance: how do we ensure our energy systems are equitable as we push to achieve sustainability targets?</p> <p><b>Presenters:</b> <i>Jameela Belyeu, Senior Manager Product Strategy &amp; Marketing; Julia Friedman, Director Regulatory Affairs and Market Development</i></p>	Old Town AB
4:10pm – 5:00pm Changemakers Discovery Track	<p><b>AEP's Agent Desktop Initiative: “Change Making” to Address Business and Technology Challenges, both Historical and Current</b></p> <p>Years ago, AEP launched an in-house user interface to provide its call center agents a way to execute common CIS functions quickly and efficiently and in a manner that supported the ability of agents to comply with business rules for seven (7) different operating companies working in eleven (11) different states. As AEP embarks on its journey to replace its older mainframe CIS system with an Oracle solution, it still needs its agents to handle customer interactions efficiently in this same complex regulatory environment. In the second half of 2022, AEP launched an effort to determine which existing Commercial, Off-the-Shelf (COTS) software solutions could be integrated with the new Oracle CIS and other systems to support call center agent efficiency, the complicated regulatory environment, and increased expectations regarding Customer Experience (CX) capabilities.</p> <p><b>Presenters:</b> <i>Alec O'Brien, TMG Consulting; Amy Jones, AEP; Julie Standley, AEP</i></p>	La Jolla AB
