

Planning - Supply Chain and Omnichannel Case Study

Improving planning and process efficiency in the supply chain and at the same time enhance customer experience XStore POS

April - 2018

1. OUR ORGANIZATION
2. COVERAGE IN LATAM
3. CHALLENGES: THREE VISIONS OF THE PROJECT
4. LET'S DO IT
 - PARTNERS
 - GOVERNANCE STRUCTURE & INTERNAT TEAM FOR SUCECESS
 - GANTT CHART
5. TARGET
6. RESULTS (Projects finished) & TARGET (Projects in progress)
7. LEARNING

2. COVERAGE IN LATAM

6 COUNTRIES

10 WAREHOUSE

3 BATA-OWNED MANUFACTURING

980 STORE

3. CHALLENGES: THREE VISIONS OF THE PROJECT

DIGITAL AGE & MILLENNIALS

- Targeted Marketing & CRM
- Social Networks
- E-commerce

CUSTOMER EXPERIENCE - DIFFERENTIATION

IN – STORE CUSTOMER EXPERIENCE

- Merchandising
- POS Experience

- DIGITAL TRANSFORMATION & OMNICHANALITY

- PLANNING & SUPPLY CHAIN

- WORLD CLASS TECHNOLOGIES AND PROCESSES

3. CHALLENGES: PLANNING & SUPPLY CHAIN

- Need of development of Merchandise Financial Plans, by-store Plans and OTB, robust solutions to analyze Goals for Sales, Margin, Inventory, recommend the precise inventory strategy to optimize results
- Need of a solution to enable more strategic and effective push allocation Need of a solution to automatically do constrained supply allocation when the dependent demand from the stores is more than the DC has on-hand
- Operation highly headcount dependable, inflexible WMS, low visibility, reduced inventory control functionalities
- Improves productivity, management of stratified and non-stratified promotions in real time and empowers stores with Omnichannel sales capabilities

MFP

NPF

ASC

APX

WMS

WCS

XSTORE

CE

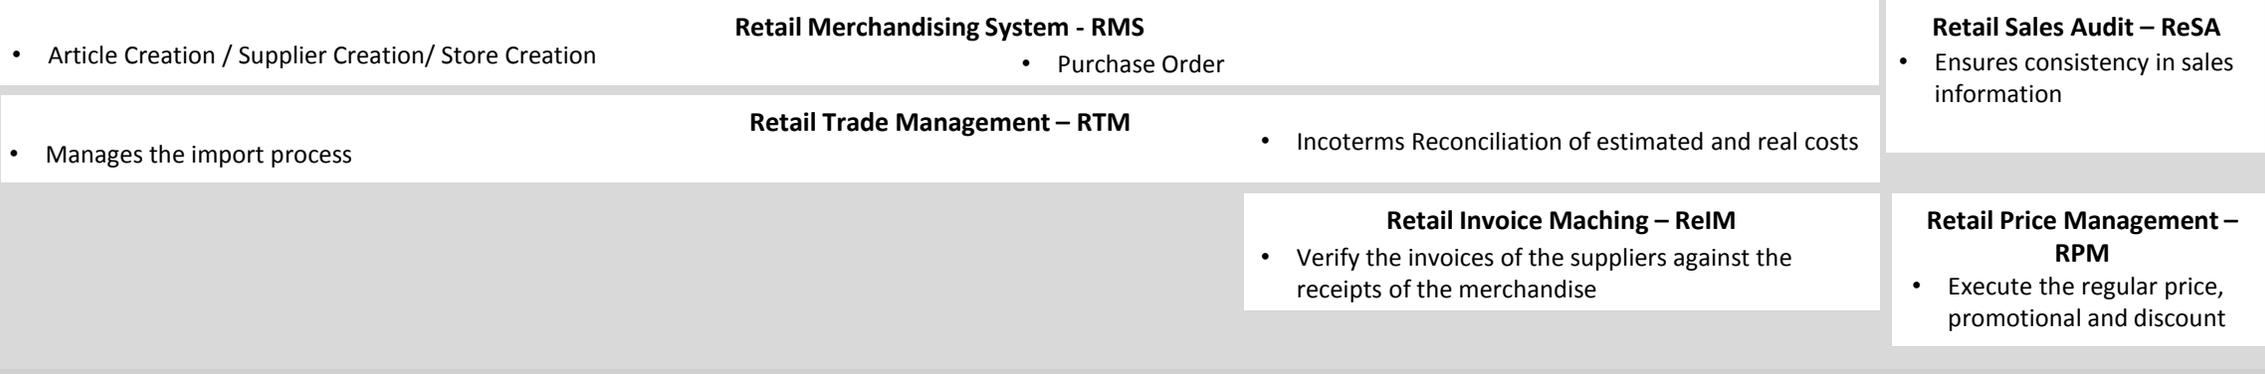

OB

3. CHALLENGES: WORLD CLASS TECHNOLOGIES AND PROCESSES

Administrative Processes

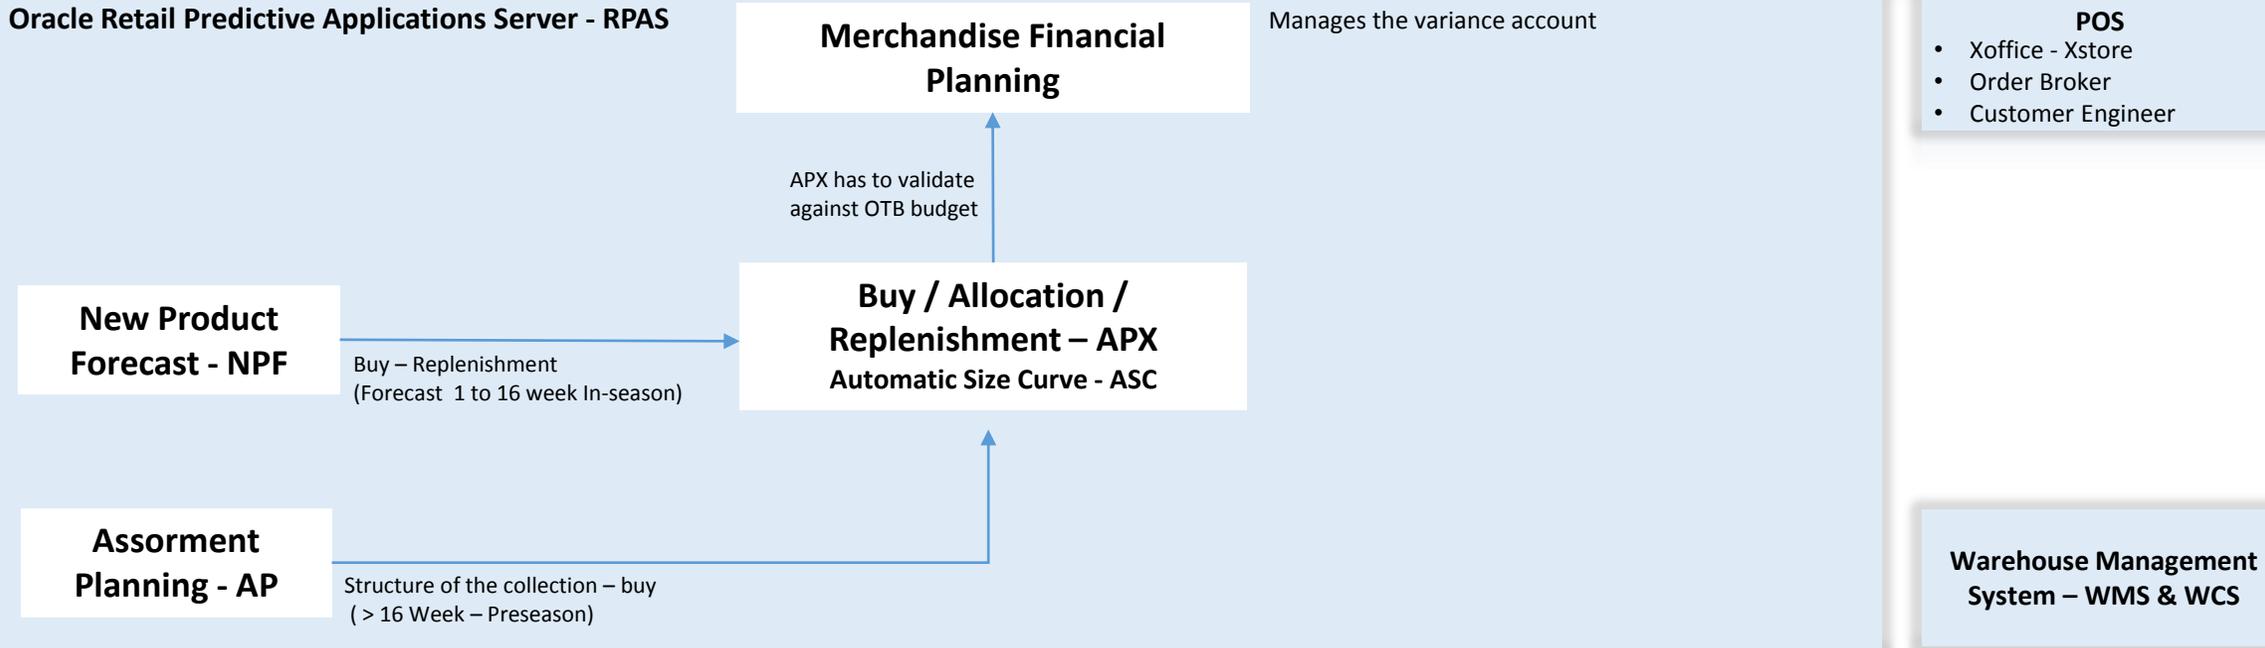

Merchandise Operations Management – MOM

Business Solutions

Store Inventory Management - SIM

Oracle Retail Predictive Applications Server - RPAS

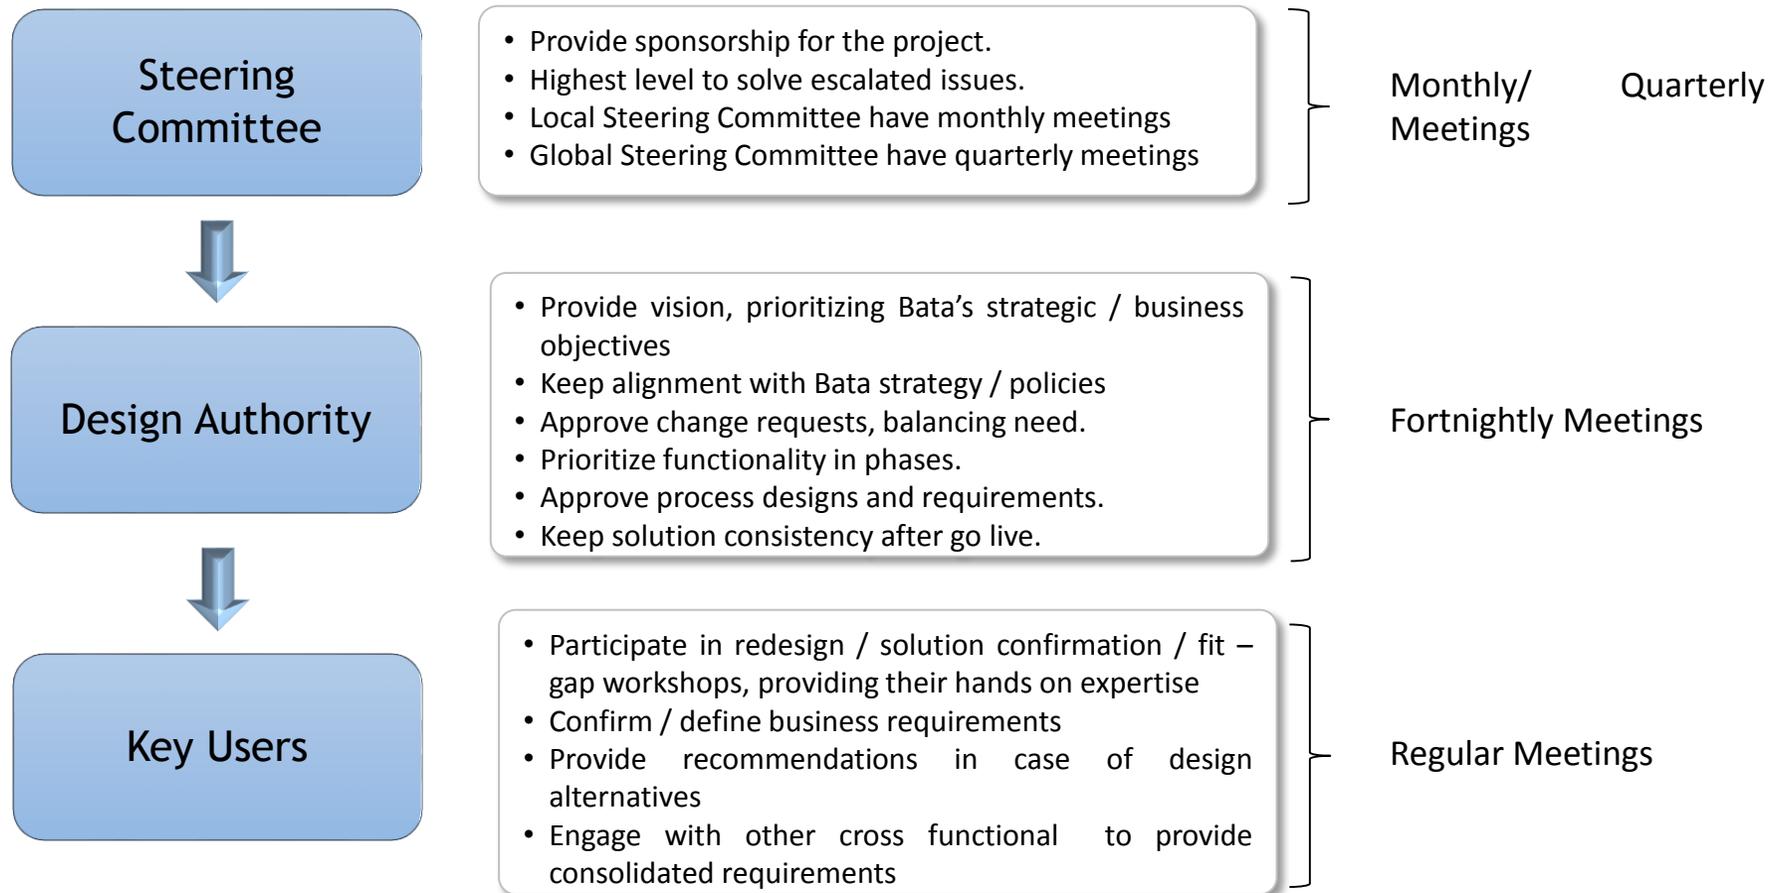

4. LET'S DO IT (PARTNERS, GOVERNANCE STRUCTURE & INTERNAL TEAM FOR SUCESS, GANTT CHART)

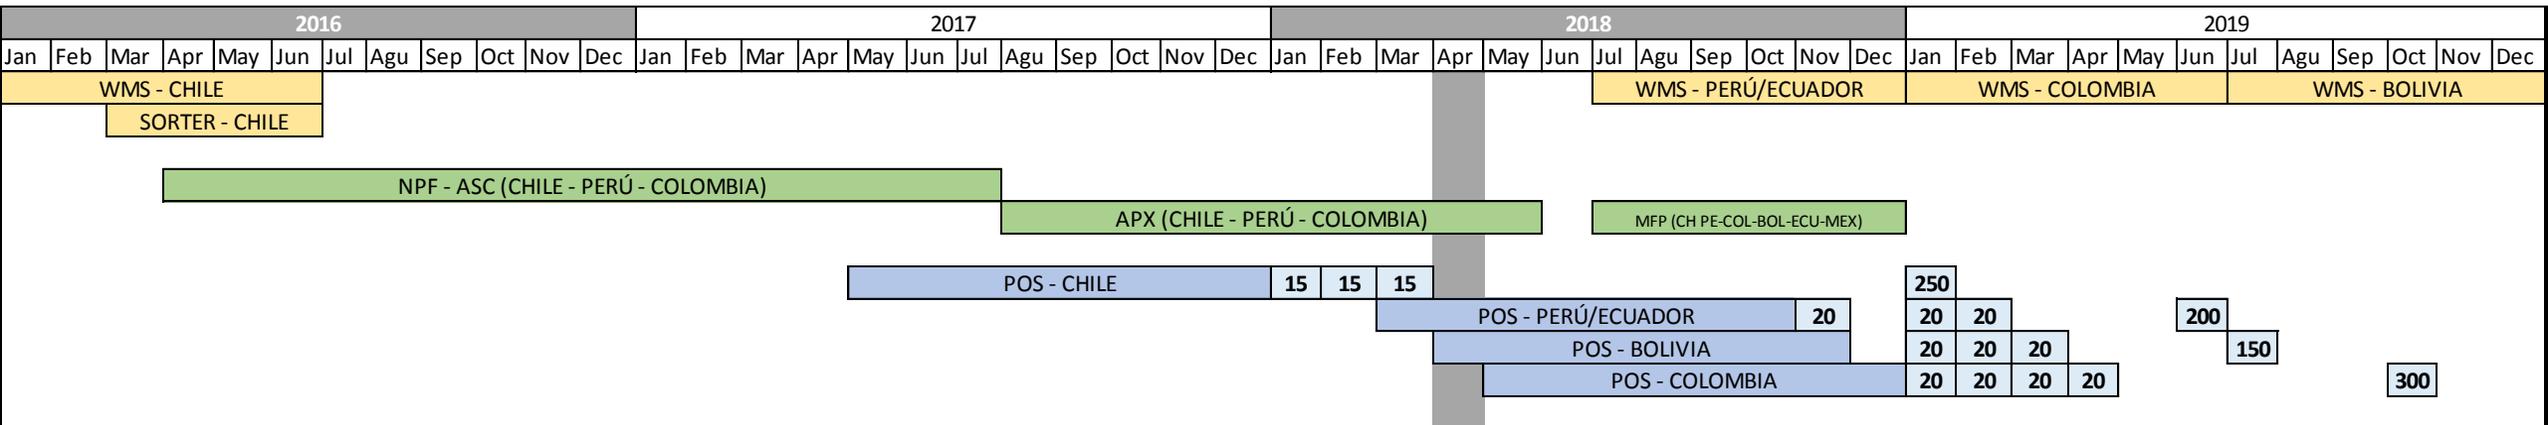

4. LET'S DO IT (PARTNERS, GOVERNANCE STRUCTURE & INTERNAL TEAM FOR SUCECESS, GANTT CHART)

Putting in place a strong governance model guarantees input from all entities in scope, while keeping adherence to global best practices , to assure future scalability for the solution

4. LET'S DO IT (PARTNERS, GOVERNANCE STRUCTURE & INTERNAL TEAM FOR SUCECESS, GANTT CHART)

- WMS in line with the plan
- NPF / ASX / APX Initial Plan was to finish in Jun-2018
- POS Initial Plan is to finish in Jun-2019

5. TARGET

	Benchmark Industry	 Brooks Brothers	 DSW	 Famous Footwear	 Fred Meyer	 Phillips Van Heusen	 Shoppers Stop	 Talbots	 KappAhl	 Job Lot
Métrica										
Customer Fill rates	20% a 30%	↑		↑		↑		↑		
Overstock	-30% a -60%	↑ -42%				↓ -50%	↓		↓ -35%	
Service Level	10% a 20%	↑ 10%	↓ 6%	↑		↑		↑		
Gross Marging	0.5% a 3%		↑ 1.1%		↑	↑		↑		↑
Annual Revenue	2% a 8%	↑	↓ 2%	↑ 2.5%	↑	↑	↑ 12%	↑ 5%	↑	↑
Store Stock Outs	-15% a -50%	↑	↓			↓		↓		
Inventory Turn	30% a 60%	↑			↑		↑	↑		
Week Of Supply	↓	↓ -20%		↓		↓		↓		
Markdowns	↓	↓ -15%		↓ -12%	↓	↓		↓ -12%	↓	↓
In-Stock	↑	↑			↑ 5%	↑ 8.8%		↑		
Time To Allocate	↓	↓ -85%		↓ -90%		↓ -91%		↓ -90%	↓	
Transfers	↓		↓ -20%	↓		↓ -28%	↓			
Allocation Accuracy	↑	↑		↑		↑		↑	↑	

In some cases no specific figure and in other cases is only the change from baseline.

6. RESULTS (Projects finished) & TARGET (Projects in progress)

- **WMS & WCS Sorter (Finished)**

Concept	Driver	KPI	Goal	Impact
Reduce logistics cost with a more efficient and reliable operation	Logistics operational processes efficiency	HEADCOUNT REDUCTION Lines / carton / units per hour according the operational process	120 to 80 persons	XX mUSD
Maximize sales improving in store availability	DC service level according replenishment frequency	SERVICE LEVEL in stores, measured as the % of availability in stores per size-store during full price season	Best sellers sizes 90% Slow movers sizes 80%	X% in revenue

- **Planning – Supply Chain (In progress)**
 - **Increases sales and margin**
 - **Sales increase by Mark Down reduction**
 - **Ensures timely and consistent inflow of new and basic/continuous products**
 - **Improves Buyers ability to take advantage of valuable selling opportunities**
 - **Minimizes inventory holding costs and store transfers**
 - **Supports Buyer effort to clear old inventory and reduces total number of markdowns**

6. RESULTS (Projects finished) & TARGET (Projects in progress)

- **Planning – Supply Chain (In progress)**

Concept	Driver	KPI	Goal	Impact
Increase the inventory turns raising the % of singles shipments	Replenishment of best sellers sizes in packs and slow movers sizes in singles	WEEKS OF INVENTORY	Reduced 2 weeks of Inventory	XX mUSD
Reduce markdown improving the replenishment process	Purchasing process aligned with prepack/singles statistical analysis based.	CURVE ACCURACY , measured as the % of accuracy of the articles curve sold	Improve MADP error by 30% to 2016	XX% markdown reduction

- XSTORE – CUSTOMER ENGAGEMENT – ORDER BROKER (In progress)
 - Same services available globally, consistent customer experience
 - Reduced from 5 different POS Solutions to 1
 - Lower training efforts
 - On Line and real time integration with ERP

- XSTORE – CUSTOMER ENGAGEMENT – ORDER BROKER (In progress)
 - Merchandise Functionality
 - Inventory bucket
 - Product Images
 - Quickly identify suspicious trends, transactions, and other data (stock, price, ect)
 - Reduce shrinkage through built-in controls and return management

6. RESULTS (Projects finished) & TARGET (Projects in progress)

- XSTORE – CUSTOMER ENGAGEMENT – ORDER BROKER (In progress)
 - In-store clienteling, loyalty initiatives, and promotions
 - Electronic Gift Cards (Connected on line – fraud protection)
 - Distributed order-broker and drop-ship solution provides the real-time inventory information necessary to complete transactions on demand using alternative fulfillment methods.

Tipo de Orden	Creación de Pedido	Picking	Retiro	Shipping
1. Delivery	Ta/e-commerce	Tb/CD		
2. Pickup	Ta/e-commerce	Tb	Tb	
3. Retail Pickup	Ta	Tb/CD	Ta	
4. Ship to Store	e-commerce	Tb/CD	Ta	

- Have a detailed survey of the GAP between the current functionalities of the In-house system and the new application
- Change management must be carried out at the beginning of the project
- Training must be provided to the leaders and it is they who train the users (not the implementer)
- Emergencies must be declare as soon as possible
- Level executives as sponsors and owning each project
