

Oracle Cloud for Government Foundations Training

Welcome !!

Built to meet the mission-critical needs for the United States Federal, Intelligence Community (IC) and the Department of Defense (DoD), Oracle's Generation 2 Cloud delivers unmatched security, performance, and scale with a comprehensive portfolio of infrastructure, platform, and application cloud services. With FedRAMP High and DISA authorizations up to the IL5 level, Oracle is continuing to invest heavily to bring cloud computing to all public sector agencies and shortly launching regions to support Secret and Top Secret workloads.

We invite you to join us for a two-part training session to learn how you can leverage power of Oracle Cloud Infrastructure (OCI) to work for your agency. The Oracle Cloud Infrastructure Foundations training is geared toward business, mission and technical professionals who are responsible for evaluating and exploring cloud solutions. We welcome both government personnel and industry partners. Completion of this course will provide participants with a comprehensive review of most topics covered on the Oracle Cloud Infrastructure Foundations 2020 Certification Exam.

AGENDA

SEPT 17 TH 2020	
1:00 – 1:45	Introduction to Oracle Cloud Infrastructure (OCI) Government and National Security Regions
1:45-2:15	Cloud Concepts
2:15-2:45	OCI Security Considerations
3:00-3:30	Identity and Access Management
3:30 – 4:00	Networking in the Cloud

SEPT 24 TH 2020	
1:00 – 1:30	Compute Services
1:30 – 2:00	Storage Services
2:00 – 2:30	Database Services
2:30 – 3:00	Pricing and Billing
3:00 - 3:30	Cloud Architecture
3:30 – 4:00	Q&A/Wrap-up

ABOUT CERTIFICATION:

The Oracle Cloud Infrastructure (OCI) Foundations Associate Certification is intended for individuals looking to demonstrate fundamental knowledge of public cloud services provided by Oracle Cloud Infrastructure. This certification is targeted towards candidates with non-technical backgrounds such as those involved in selling or procuring cloud solutions, as well as those with a technical background who want to validate their foundational-level knowledge around core OCI services. This exam does not require any hands-on technical experience and is not a prerequisite for taking any other OCI certifications.

Completion of this course will provide participants with the majority of the training

needed to pass the Oracle Cloud Infrastructure Foundations 2020 Certification Exam.

KEY CONCEPTS COVERED:

Oracle Cloud Infrastructure (OCI) Built from the ground up to meet the mission-critical needs of the United States Intelligence Community (IC) and the Department of Defense (DoD), Oracle's Generation 2 Cloud delivers unmatched security, performance, and scale with a comprehensive portfolio of infrastructure, platform, and application cloud services. With FedRAMP High and DISA authorizations up to the IL5 level, Oracle is continuing to invest heavily to bring cloud computing to all public sector agencies and will soon bring more regions online to support Secret and Top Secret workloads.

The workshop will focus on the following key concepts:

- Basic cloud concepts and its principles of economics
- Key features and components of OCI
- Core Solutions on OCI
- Core OCI services
- Cloud Native services
- OCI Security model
- OCI compliance structure
- OCI Pricing model
- OCI operational and support model

Thank You

Oracle Global Government Team

“Making cloud innovation more accessible to governments and enterprises with superior security, infrastructure, performance, reliability, and data management.”
