Subject Matter			
Proposed Title	Responding to the Challenge: Building the Future Workforce in the Banking Industry		
Format		Speaking Time	
Summary	Digital technologies are fundamentally reshaping the banking landscape across Asia. Various new developments such as open banking concepts and digital banks are disrupting the industry and setting new customer expectations. With traditional banking institutes under pressure from new competition, we will look at the crucial role of HR: How it can leverage technology such as AI, Machine Learning and Bots to deliver a unique employee experience and prepare the organization for the future of work.
