- Block SQL Injection Attacks[1]		Yes	Yes
- Intrusion Detection[1]		Yes	Yes
MySQL Enterprise Audit[1]		Yes	Yes
- Policy-based auditing compliance[1]		Yes	Yes
MySQL Enterprise Scalability[1]		Yes	Yes
- Thread Pool[1]		Yes	Yes
MySQL Enterprise High-Availability[1]		Yes	Yes
- MySQL InnoDB Cluster		Yes	Yes
- MySQL Group Replication		Yes	Yes
MySQL Cluster Manager[1]			Yes
- Configuration & Provisioning[1]			Yes
- Automatic Scaling[1]			Yes
- Management & Monitoring[1]			Yes
MySQL Cluster Geo-Replication			Yes
Oracle Product Certifications[6]			

Certified with Oracle Linux[6]	Yes	Yes	Yes
Certified with Oracle VM[6]	Yes	Yes	Yes
Certified with Oracle Solaris[6]	Yes	Yes	Yes
Certified with Oracle GoldenGate[6]		Yes	Yes
Certified with Oracle Data Integrator		Yes	Yes
Certified with Oracle Fusion Middleware[6]		Yes	Yes
Certified with Oracle Secure Backup[6]		Yes	Yes
Certified with Oracle Audit Vault and Database Firewall[6]		Yes	Yes

[1] Features are only available in Commercial Editions

[2] Annual Subscription

[3] Oracle Premier Support for MySQL is included in Annual Subscriptions (no extra cost)

[4] Server: is defined as the computer on which the programs are installed. A Server license allows you to use the licensed program on a single specified computer.

[5] Socket: is defined as a slot that houses a chip (or a multi-chip module), which contains a collection of one or more cores. Regardless of the number of cores, each chip (or multi-chip module) counts as a single socket. All occupied sockets on which the Oracle program is installed and/or running must be licensed.

[6] Non-MySQL products not included (can be purchased separately)

Pricing is "per Server", for 2 classes: Servers with 1-4 Sockets, and Servers with 5+ Sockets

For pricing for 5+ Socket Servers, contact the MySQL Sales Team

ISVs, OEMs and VARs can learn more about MySQL as an Embedded Database.
