- Leading Practices: efficient engineered approach for delivery to provide high quality results. Oracle Consulting leading practices, proven processes.
- Highly automated and efficient migration with lower migrations costs
- Rapid deployments with less risk.

### Empowering Success Every Step of the Way

Oracle Consulting has very comprehensive menu of services you can choose from, dedicated migration experts, a proven methodology, automation and a flexible delivery model to ensure that your Netezza migration to Oracle Exadata is managed in the most efficient and pain-free way.

Oracle Consulting experts work with your IT teams to enable it to understand the processes and technical approach related to Oracle Exadata services. Moreover Oracle Consulting experts will design a system architecture that addresses your business and IT requirements.

Following that migration office will be established with business & IT stakeholders and a migration plan as much as the automatic migration of the workloads.

Our automation tools help simplify and accelerate migration. Rather than trying to migrate so many different data structures manually, we took a different, more scalable approach and created a system that could automate the migration.

To get the most out of your investment, Oracle Consulting will also help you to adapt your current IT management and maintenance processes to an Operating Model that includes the enduring capabilities that ensure your long-term success.

Oracle Consulting provides You with a complete experience for all elements of a Netezza migration and comprehensive adoption of the Oracle Exadata.

### Key Activities Include:

1. Discovery Analysis workshops for detailed architectural design
  - To acquire and discuss information about IT landscape to fully design the appropriate architecture.
2. Platform operational validation
