Oracle Dedicated Region Cloud@Customer

Bring Oracle’s public cloud benefits on-premises

Oracle delivers a complete public cloud on-premises including fully integrated experiences for IaaS, PaaS, and SaaS as well as the highest level of security.

Run an entire portfolio of workloads on a single-site, flexible cloud infrastructure that meets your needs.

Oracle Dedicated Region Cloud@Customer vs. AWS Outposts

- **Key Difference Makers**
  - No hidden costs
  - Customer enjoys the economics of a shared, pay-as-you-go model with no additional ONPE charges.
  - Oracle manages all cloud infrastructure and workloads.
  - Oracle unlocks all available public cloud features on-premises.
  - Security-first design
  - Consistency in operations and development
