Sit down with Safra Catz for a live Q&A about how Oracle is putting your success at the heart of everything we do. Speakers - Safra Catz, CEO, Oracle - Jason Maynard, EVP, Revenue Operations, Oracle
12:05 pm – 12:35 pm	Driving Success While Innovating for the Future Oracle customers are some of the most forward-thinking and innovative companies in the world which has led to tremendous success. Gary Miller hosts a panel with some of these leaders to discuss how they create better experiences, products, services, and outcomes for their employees, customers, and stakeholders. Speakers - Gary Miller, Customer Success Officer and EVP, Oracle Customer Success Services, Oracle - Greg Brentin, SVP Technology, Skydance Animation - Matt MacVey, EVP, CIO, Children's National Hospital
12:35 pm – 1:00 pm	Cloud as a Catalyst for Transformation Ascension, one of the leading non-profit and Catholic health systems in the US, wanted to increase efficiencies and transparency across their organization. Ascension was looking to standardize processes, policies and tools to better support their strategic priorities. The team is currently working with Deloitte and Oracle on an ERP transformation in an effort to gain operational agility and harness stronger data insights. Join this fireside chat with Ascension and Deloitte about making the case for change and what they have learned on this journey to a multi-cloud environment. Speakers - Kulleni Gebreyes, US Life Sciences & Health Care Consulting Industry Leader and US Chief Health Equity Officer, Deloitte Consulting, LLP - Gagan Singh, SVP and Chief Information Officer, Ascension

Day 1 – Tuesday, September 19th Afternoon Sessions

1:00 pm – 2:30 pm	Networking lunch in Executive Summit dining room Sales meetings
1:30 pm – 2:30 pm	Oracle Health Conference General Session: Breaking the Invisible Barrier Between Research and Care Delivery Streamed into Executive Summit lounge
3:00 pm – 4:30 pm	Oracle's Vision for the Future Priority seating at Larry Ellison keynote / streaming into Executive Summit session room
4:30 pm – 5:00 pm	Generative AI: Innovation, Insights, and Impact Business must be reinvented through the use of AI as a copilot. Together, Oracle and Accenture deliver true value to businesses through artificial intelligence, especially with the new generation of foundation models taking advantage of generative AI. Organizations must start now by decomposing jobs into tasks and investing in training people to work differently and alongside machines, because this can recast and strengthen every role within the organization. This will give them a strategic advantage over competitors who lack imagination. Using AI as a co-pilot, Accenture and Oracle experts explore how organizations can prepare for a world where AI works alongside them at speed, securely, and at scale. Speakers • Lan Guan, Chief AI Officer, Accenture • Krzysztof Soltan, Chief Information Officer, Vulcan Materials Company
5:00 pm – 5:45 pm	Open Q&A with Larry Ellison Join Larry Ellison for an open Q&A session following his CloudWorld keynote. Speaker • Larry Ellison, Chief Technology Officer, Oracle

10:30 am – 11:15 am	Achieve More with Less: Become More Efficient While Continuing to Innovate <i>Open Q&A session with Steve Miranda and customers</i> Technology has the power to revolutionize industries, but it's important that our businesses can evolve to match this innovation. Participate in a conversation with Steve Miranda and your peers about what is needed to do and achieve more with less time, money, and resources. How can technology enable your organization's success? Speakers • Steve Miranda, EVP, Oracle Applications Development, Oracle • Aaron Bly, Chief Information Officer, First Solar • BJ Moore, CIO and EVP, Real Estate Operations and Strategy, Providence
11:15 am – 11:45 am	Value Creation for the Future: The Case for Reinvention According to <u>PwC's 2023 Global CEO Survey</u> , 40% of CEOs don't believe their business will be economically viable a decade from now. In order to remain relevant to customers, companies will need to create new revenue streams, add new offerings, or even enter new industries and markets. This requires reinvention of how you operate, engage with employees, approach leadership, and use technology. PwC will lead an open conversation with Weatherford about how they are successfully changing their game. Speakers • Mohamed Kande, Vice Chair - Global Advisory Leader and US Consulting Solutions Co-Leader, PwC • Kishore Sundararajan, CIO, Weatherford
