Falling In Love with Your Data is Easy with Fusion Analytics Warehouse and Oracle Consulting

Imagine easily accessing and analyzing your data to make faster, more informed business decisions. How would you feel if you could spend more time innovating and less time crunching data?

This can all be possible with Oracle Fusion Analytics Warehouse (FAW). Powered by Oracle Autonomous Data Warehouse and Oracle Analytics, you can put your Oracle Applications Cloud data to work for you.

Falling in love with your data is possible with Oracle Consulting by your side. Our **Oracle Fusion Analytics Warehouse Service Offering** enables you to discover meaningful insights from your Oracle application data using Oracle-managed, prebuilt analytics to create KPIs, dashboards, and reports.

Our experts will help guide the way as you harness the power of FAW. From there, the sky's the limit. Uncover underlying drivers of profitability in your organization, unlock insights needed to analyze workforce diversity, mitigate employee attrition, and so much more.

Why Choose Oracle Consulting?

When you work with Oracle Consulting, you get access to all of Oracle: product development, support, and education. We bring this expertise, along with industry-specific best practices gained from successful implementations, directly to organizations like yours to drive long-term Oracle Cloud success.

Our mission is simple: To become your trusted advisor in charting an optimal path to maximize your cloud investment.

We can't wait to help you become wildly successful.

KEY FAW BENEFITS

Purpose built for Oracle Cloud Applications
- Single shared analytics data model

Prebuilt, ready to use
- Deploy in weeks, not months
- No coding required

Rapid deployment with prebuilt:
- KPIs, dashboards, reports
- Semantic and data model
- Data pipeline to Oracle Cloud Apps
- Integrated security framework

Fully extensible to fit your business
- Bring in data from other sources
- Built on Oracle Analytics Cloud and Oracle Autonomous Data Warehouse

Oracle Consulting's FAW Service Offering can make this possible with its:

- Price competitive service
- Six-week go live timeline
- Access to our team of Oracle Analytics and Cloud Infrastructure certified consultants
- Three levels of support to choose from
- One Oracle advantage
