

# Oracle Communications Consulting (OCC) Deployment & Configuration Services

OCC is your trusted advisor and specialist team with the most extensive expertise in deploying Communications Global Business Unit (CGBU) products worldwide. Employing our best practice processes and tools, your product or project will be deployed and implemented by the best specialist, with accountability and responsibility.

## OUR EXPERIENCE

We provide solutions to 20 of the top 20 communications customers and X of the top X Enterprise customers.

Our communications networking software routes 1 billion calls and text messages, connects 80 million conference minutes, and delivers 8.3 billion email messages per day.

We have deep expertise in scaling, securing and managing over 2000 communications and enterprise networks per day.

## OCC ENGAGEMENT

Our team is dedicated to delivering value to you and are with you for the duration of the project to ensure the desired business and technology outcomes. This provides our customers with lower total cost and reduced risk, increased capacity for innovation and an accelerated time to market.

- SD-WAN

### Services:

- Installation, Deployment & Integration Services
- Configuration Optimization
- Managed Services
- Project Management Service
- DDoS Testing
- High & Low-Level Design Service

## WE MAKE IT EASIER

With access to unmatched Oracle expertise, we make your complex projects and integrations appear seamless. We have proven Best Practices, Automation and Methodologies that set us apart as our Project Partner. Furthermore, single-vendor accountability eliminates those costly communication issues and delays.

## WE'VE DONE IT BEFORE

With year of intimate knowledge of the products and environments, we have developed configurations and know-how to provide you with the best in service. We take a collaborative workshop approach to your project to ensure all your technology needs are being met. Not only this, but you can be assured that our designs for your network are aligned to Oracle R&D investment.

## LOWER TOTAL COST OF OWNERSHIP

With Fixed Price Project options and a blended delivery approach, we can reduce customization and maintenance needs for your network.

## ACCELERATED TIME TO VALUE

Drawing on our experience, reusable assets and proven project accelerators, we can delivery your project at unparalleled speeds meaning your network is ready for operation sooner with your single-vendor product and service strategy.

### Key Benefits:

- Reduction in CAPEX
- Reduction in OPEX
- More Value FASTER

### Our Mission:

To provide integrated communications through on-premise and cloud solutions to unleash innovative business models and new revenue.
