More than 400 organizations of varying sizes have integrated Textura with different ERP and accounting systems to help streamline financial processes, reduce manual data entry, improve visibility, and support financial controls.

TEXTURA INTEGRATIONS INCLUDE:

ORACLE Fusion Cloud ERP · ORACLE NetSuite · ORACLE JD Edwards
CMiC · Sage · VIEWPOINT A TRIMBLE COMPANY
intuit quickbooks · YARDI · Acumatica The Cloud ERP

Implementation timelines vary based on factors such as system configuration and customer requirements as well as essential client-side activities—project planning, system preparation, data configuration, and comprehensive testing—to support a smooth, low-risk implementation and a successful go-live.

Oracle Textura helps contractors transform construction payment management into a strategic business capability. Textura combines payment automation with enterprise-grade compliance management, financial controls, supplier management, ERP integration, analytics, and an AI Assistant in a single platform that scales from small to large, complex projects.
