

# Oracle Hospitality Innovation Week

June 22-26, 2020

## Agenda

Monday	June 22
10:00 AM ET / 7:00 AM PT / 2:00 PM GMT	<b>Welcome to Oracle Hospitality Innovation Week</b> Join us to kick-off Oracle Hospitality Innovation Week. During this informative session we will detail the intent of Innovation Week, how the week will progress, the resources that will be available to you throughout the week and beyond, and answer any questions you may have to ensure your success.
ON-DEMAND	<b>Oracle Partner Network</b> Spend time with Mike Provost, Senior Manager, Hotel Solutions as he interviews Nadine Warrington, the Oracle Hospitality Partner Manager who shares her insights on how easy it is to sign up for the Oracle Partner Network and the benefits that Partners can receive.
ON-DEMAND	<b>Introduction to the OPERA Cloud Solutions</b> Want to understand what the OPERA Cloud Solution offers? Join us to get a overview of our Property Management Services, Sales & Events Management and much much more.
ON-DEMAND	<b>OPERA Web Services (OWS), Kiosk Integration Overview and Key Differentiators</b> Listen in as Eric Morgenstern, Principle Technical Consultant provides an overview our most commonly used interface protocols and their key difference that will assist you integrating with OPERA.
ON-DEMAND	<b>OPERA Xchange Interface (OXI), Overview</b> Fred Wass, Senior Manager, Hospitality Integrations Strategy provides an overview of the very popular OXI interface. Learn key features and why it makes it one of our most popular integration protocols with OPERA.
ON-DEMAND	<b>Developing Your Symphony Cloud Integration</b> Integrating your solution with Symphony ensures that partners truly own their guest experience and increase profitability by providing direct access to Oracle's APIs. Joining Oracle's Food and Beverage Cloud Marketplace puts your product in the spotlight, increasing brand awareness by introducing your solution to a growing global audience.
ON-DEMAND	<b>Oracle Apiary for Symphony Cloud Introduction</b> Introduction to Oracle's Apiary website to design and develop integrations through our on-line documentation. Transaction Services (TS) API is a web service that helps integrate a third-party application with the Symphony Point-Of-Sale (POS) system. It leverages core business functionalities of the Symphony POS and exposes them via web methods for third-party integration. This web service provides methods to perform the following POS operations. Use Transactions Services for the following integration services Web or Native App Ordering, Kiosk, Table Ordering, Aggregators, In Room Dining, and Digital Menu Board.
