Oracle Intelligent Advisor enables personalized, agile, advice and decision automation throughout the customer journey. Provide the right advice to each of your customers and empower your agents to deliver personalized service. With business users creating the powerful advice experiences, you can quickly adapt to changing customer expectations. Each path of the customer journey is tracked with detailed analytics for full transparency.

**Self-Service Advice**
- Empower customers to self-serve for simple and complex requests.

**Agent Guidance**
- Ensure agents provide consistent, personalized advice and decisions across all channels, in any language.

**Advice Authoring**
- Configure powerful advice experiences without a programming background or the involvement of IT.

**Advice Analytics**
- Optimize experiences with channel interviews and decision analytics.

**Decision Services**
- Easily automate decisions and complex calculations within service workflows and batch processes.

**Decision Compliance**
- Transparently record and explain advice given and decisions made.
- Ensure compliance and adhere to company policies.
