Software platform maintenance and patching is one of the greatest challenges of managing business-critical applications. Oracle Java SE Subscription combines license and support into a simple subscription that allows you to cost-effectively manage Java SE installations, updates, and upgrades across your enterprise.

As the main contributor and steward of Java SE, Oracle is the only company that can guarantee long-term support and updates on a timely and predictable schedule. The Java SE Subscription from Oracle provides access to tools that consistently manage updates, enables enterprises to monitor their own Java platforms, and provides direct access to a specialized Java SE support team.
