

ORACLE

## Oracle Applications Unlimited Extended Through at Least 2031

We listen carefully when our customers share their business needs and we recognize that your Oracle on-premise applications are critical to your success. We are committed to helping you succeed.

---

### Applications and Support—an Unbeatable Combination

To demonstrate our ongoing commitment to your business, we are announcing an extension through at least 2031 for our Oracle Applications Unlimited Products: Oracle E-Business Suite, JD Edwards EnterpriseOne, PeopleSoft, and Siebel CRM. Doing so provides you with more than a decade of ongoing product development, new features, and innovations on the Continuous Innovation releases and continued Oracle Premier Support.

---

## Hyperion Joins the Applications Unlimited Products

In addition to this extension, we are also announcing the newest product to join Applications Unlimited—Hyperion. This means Hyperion will also be available on premise through at least 2031 on its Continuous Innovation release and receive ongoing new features and Oracle Premier Support.

As an Oracle Applications Unlimited customer, we are here to help support your company's plans. Your long-term business strategy guides your company to success—underpinning that success are the Oracle products and trusted support you depend on to run your business.
