Evreka | Turkey

@EvrekaCo
evreka.co

Evreka develops smart solutions for waste collection and city cleaning operations. Their hardware-enabled software allows municipalities and private waste collection companies to track and manage complicated tasks. Evreka's intelligent solutions increase the efficiency of waste collection and city cleaning operations' and a drastic increase in the service quality.

- Evreka won an Oracle Sustainability Innovation Award at OpenWorld San Francisco 2019.

- This startup solves efficiency problems of waste collection and cleaning operations with one complete solution. Customers are able to decrease their cost of operations and CO2 emission up to 45%.

- They are using real-time data with the help of Evreka Business Intelligence and ERP features for sustainable improvement. Evreka is scoping integrations with enterprise solutions like Oracle Asset Management.

Umutcan Duman
Cofounder and CEO

Duman previously founded StajUp.com and Connection Raiser. He was awarded with the Environmental Protection and Moral Leadership award by JCI Turkey in 2018.
