Healthcare Leap

Implement Smarter and Faster with Oracle Healthcare Leap

Imagine if lengthy projects, customizations, and budget overruns were a thing of the past. What if you could start a project that was already 80% complete at kick off, built specifically to address your biggest challenges and cost millions of dollars less than standard installs?

With Oracle Leap for Healthcare it's all possible.

Oracle Consulting has worked with the most respected names in Healthcare to transform the way they work. Taking what we've learned from those projects, we built Oracle Healthcare Leap to offer a preconfigured industry solution to help Healthcare providers address their biggest challenges while maximizing efficiencies, lowering implementation risk, and making delivery predictable and prescriptive.

You're not like other Healthcare providers. Your differences make you unique, and Healthcare Leap enables you to focus on them by delivering an application configured to elevate your competitiveness and serve your community effectively.

Why Choose Oracle Consulting?

When you work with Oracle Consulting, you get access to all of Oracle: product development, support, training, and education. We bring this expertise, along with industry-specific best practices gained from successful implementations, directly to organizations like yours to drive long-term Oracle Cloud success.
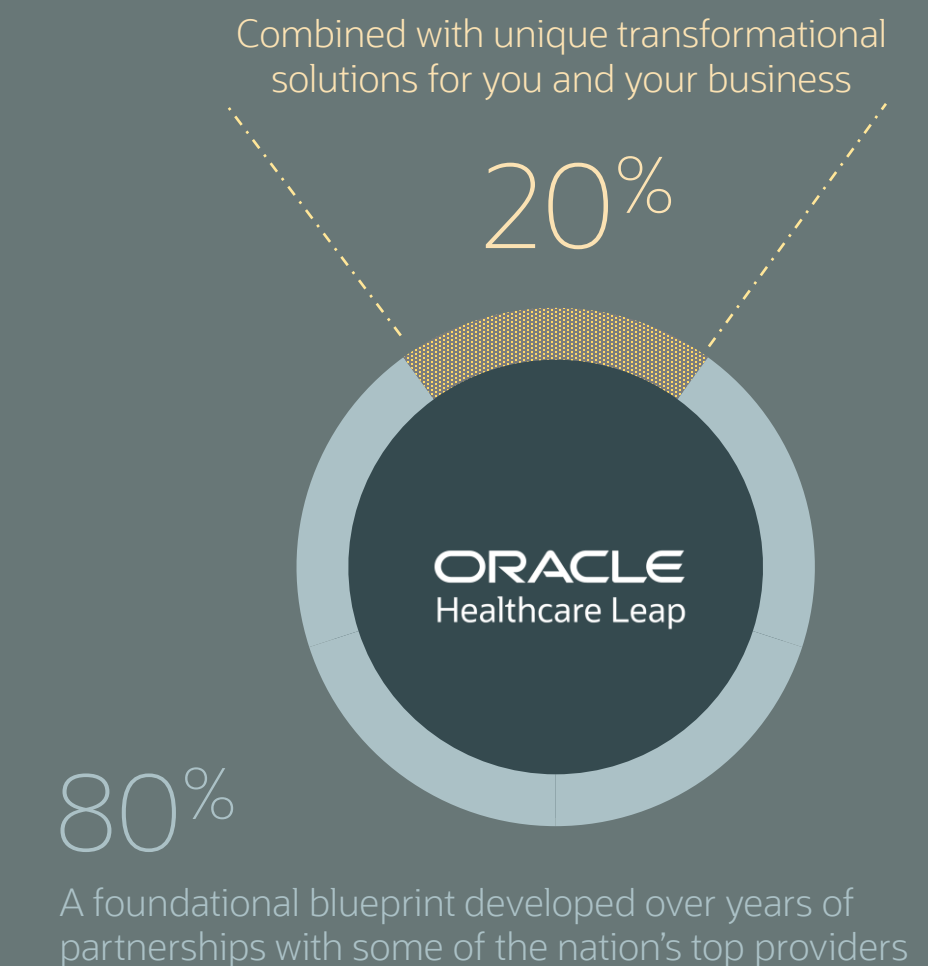

Our mission is simple: To become your trusted advisor in charting an optimal path to maximize your Cloud investment. We look forward to working with you on this journey!

Who is leap for?

Oracle Healthcare Leap is designed for Healthcare organizations who are looking for a faster return on their investment when adopting an industry-developed, end-to-end solution that can be implemented with a lean internal delivery team. Your organization can make the most out of Oracle Leap if it:

- Desires a modern, Cloud based, integrated, Core Financials, HCM, and Supply Chain platform
- Seeks to shed disparate/on-premise solutions
- Wants to learn and implement best practices from its Healthcare peers

Combined with unique transformational solutions for you and your business
