How Can B-BBEE Suppliers Self-Register with Your Business?

ORACLE®

Onboarding New B-BBEE Suppliers

The introduction of Broad-Based Black Economic Empowerment (B-BBEE) has made the way organisations manage, monitor and report on B-BBEE-compliant suppliers more complex. Being able to verify and onboard B-BBEE-compliant suppliers quickly and efficiently is critical.

And it's important to understand the business classification, or Preferential Procurement Policy Framework Act (PPPFA) scores, of B-BBEE suppliers.

Oracle Procurement Cloud will help you gain the agility and insights you need to:

- Empower suppliers to self-register with your organisations in real time
- Onboard B-BBEE suppliers with the highest scorecards
- Better understand your suppliers and their B-BBEE rankings

Let's take a quick look at how you can use Oracle Procurement Cloud to onboard your B-BBEE suppliers and include all the information you need as a business…

ORACLE®

Streamlining the Onboarding Process

Self-registration makes onboarding simpler and more straightforward for B-BBEE suppliers; it:

- Captures mandatory information
- Increases efficiency
- Saves time and effort
- Provides complete visibility of supplier leads

ORACLE®

Business Classification

Once a supplier has registered and provided contact and banking information, you can view their uploaded information on the classification of their business, such as:

- Broad-Based Black Economic Empowerment (B-BBEE) levels
- PPPFA scores, assessment outcomes and base amounts
- Annual turnover

Questionnaire

You can also include a questionnaire, which you can create from our simple template, to gather more information from your B-BBEE suppliers.
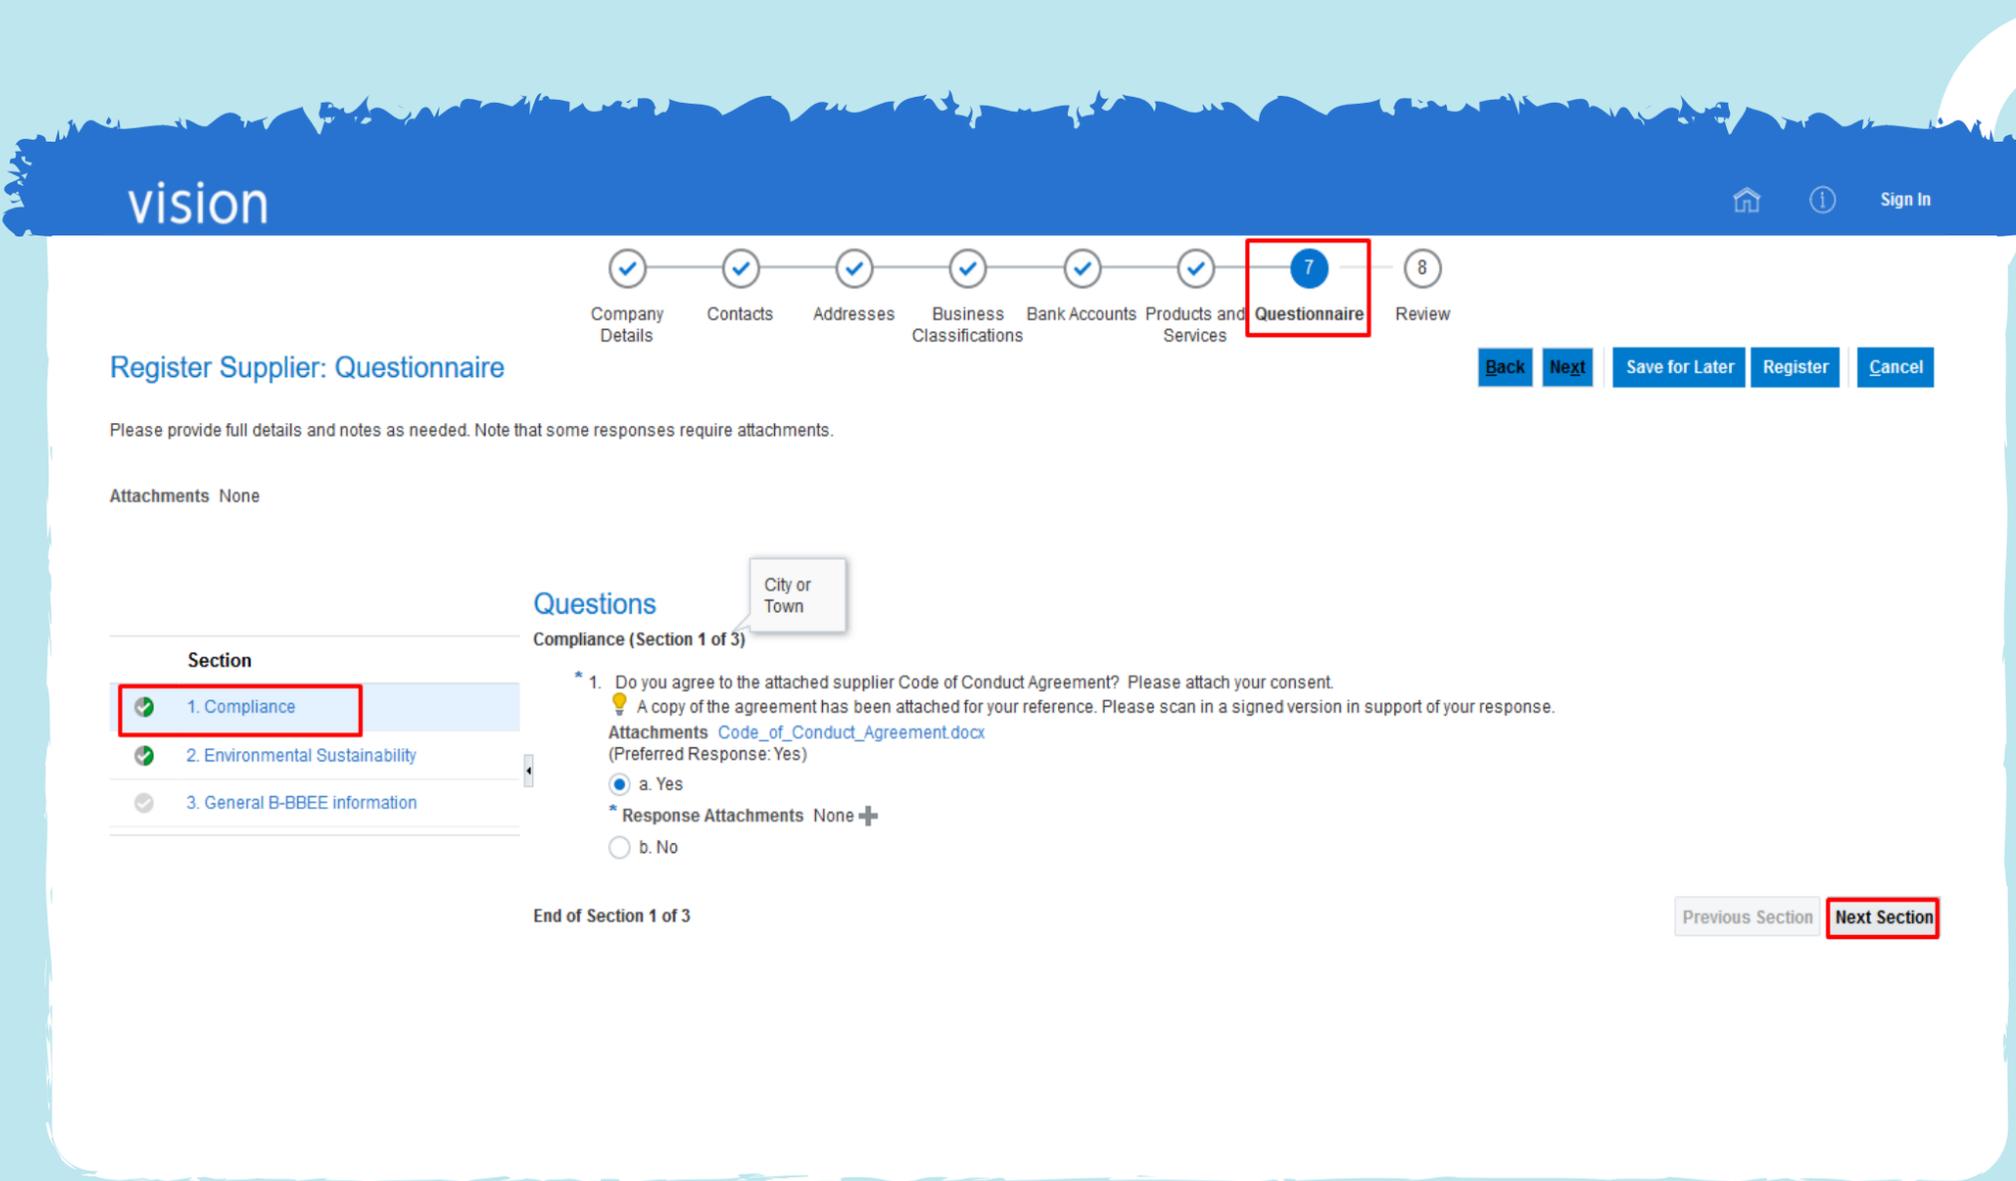

Oracle Procurement Cloud: Onboard B-BBEE Suppliers Seamlessly

It's easy to onboard suppliers quickly and easily; use this dashboard to manage your B-BBEE suppliers.
