

# Efficient Online Payment Management

## Efficiency

- Cloud technology eliminates manual steps and paper
- Integration with ERP systems
- Dollar and time savings

## Automation

- Workflows and notifications
- Automated document collection
- Compliance tracking

## Collaboration

- One database for all users
- Anytime, anywhere online access
- Real-time information

## Risk Reduction

- Better visibility into activities
- Enhanced variation visibility and management
- Payment holds tied to compliance

**Oracle Textura Payment Management** is a web-based solution that automates and streamlines construction payment management processes. It enables online collaboration on core payment process areas: claim submission, compliance management, statutory declaration collection and tracking, and disbursement.

Oracle Textura Payment Management boosts efficiency by eliminating manual, paper-based processes and mitigates risk through improved visibility into project activities. Our team provides unlimited training and support for all users from owners through to subcontractors.
