ORACLE

Which HR system reduces headaches and increases productivity?

See how much simpler it is to implement Oracle Cloud HCM vs. SAP SuccessFactors

Your new HCM solution should make your life easier – not harder. We know implementations can be stressful, but the right provider can help make it a much smoother process. Learn why organizations trust Oracle over SAP to successfully implement their new HR solution.

" We didn't want partnership relationships with third-party products, like SAP pushes a lot. And if you look at who is leading the push in the cloud, it's Oracle, not SAP, which is focused on HANA."

**Craig Halterman, CIO, Cohu**

Implementation Satisfaction

SAP customers are

50%

more likely to say the project was more stressful and difficult than anticipated
