

Transition to Tomorrow's Finance, Today

Modern ERP solutions deliver what growing companies need—greater agility and efficiency with a lower total cost of ownership. This is why future-looking JD Edwards customers are moving to Oracle ERP Cloud.

Why Modernize? Why Cloud? Why Now with Oracle ERP Cloud?

Scroll to find out

Why Modernize? To drive growth!

The 7 drivers of growth

- 1) Market expansion and the pursuit of new customers
- 2) Successful execution of a formal growth strategy
- 3) Investing in products, services, business systems/ processes
- 4) Attracting and retaining the right talent which will then attract even better talent
- 5) Great financial management for improved cash flow, working capital, and financial processes/controls
- 6) Cost efficiencies to spend less for every \$\$ of revenue
- 7) Staff development to boost employee engagement

“Being five years behind the time with your systems means that you are not adaptable. Your business is not scalable or flexible [enough] for what is happening in the market. So for a business like APN Outdoor that is changing and growing, it needs to have a financial system that supports that.”

— David Watkins
General Manager,
Finance, APN Outdoor

Why ERP in the Cloud?

- Predictable costs over time
- Cheaper upfront investment
- No additional hardware investments
- Continuous updates
- Proactive maintenance
- Built-in best practices
- Quicker implementations
- The last upgrade you will ever do
- Continuous innovation
- Cutting-edge security

BETTER RETURNS

- 3.2x the return on investment (ROI)
- 2.3x lower total cost of ownership (TCO)
- 2.2x faster payback period
