

Reduce Costs and Accelerate Innovation

E-Business Suite

Upgrade to 19c

Take advantage of the latest innovations by upgrading to Oracle Database 19c.

DATABASE 19c OFFERS GREAT BENEFITS

Continuous Innovation in Every Release

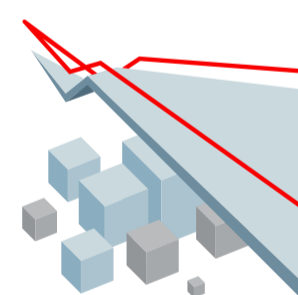

- High-speed data ingestion
- Active Data Guard DML redirect
- Automatic indexing and other Optimizer features
- Hybrid partition tables

Oracle Database 19c is the final long-term release of the 12c and 18c family of products and includes Support through 2023, with Extended Support into 2026.

SUPPORT WAIVERS END SOON

Upgrade and gain a competitive edge from Oracle's most powerful database

All E-Business Suite customers running on 11.2 or 12.1 databases must upgrade to 19c database to remain fully supported.

Don't Delay

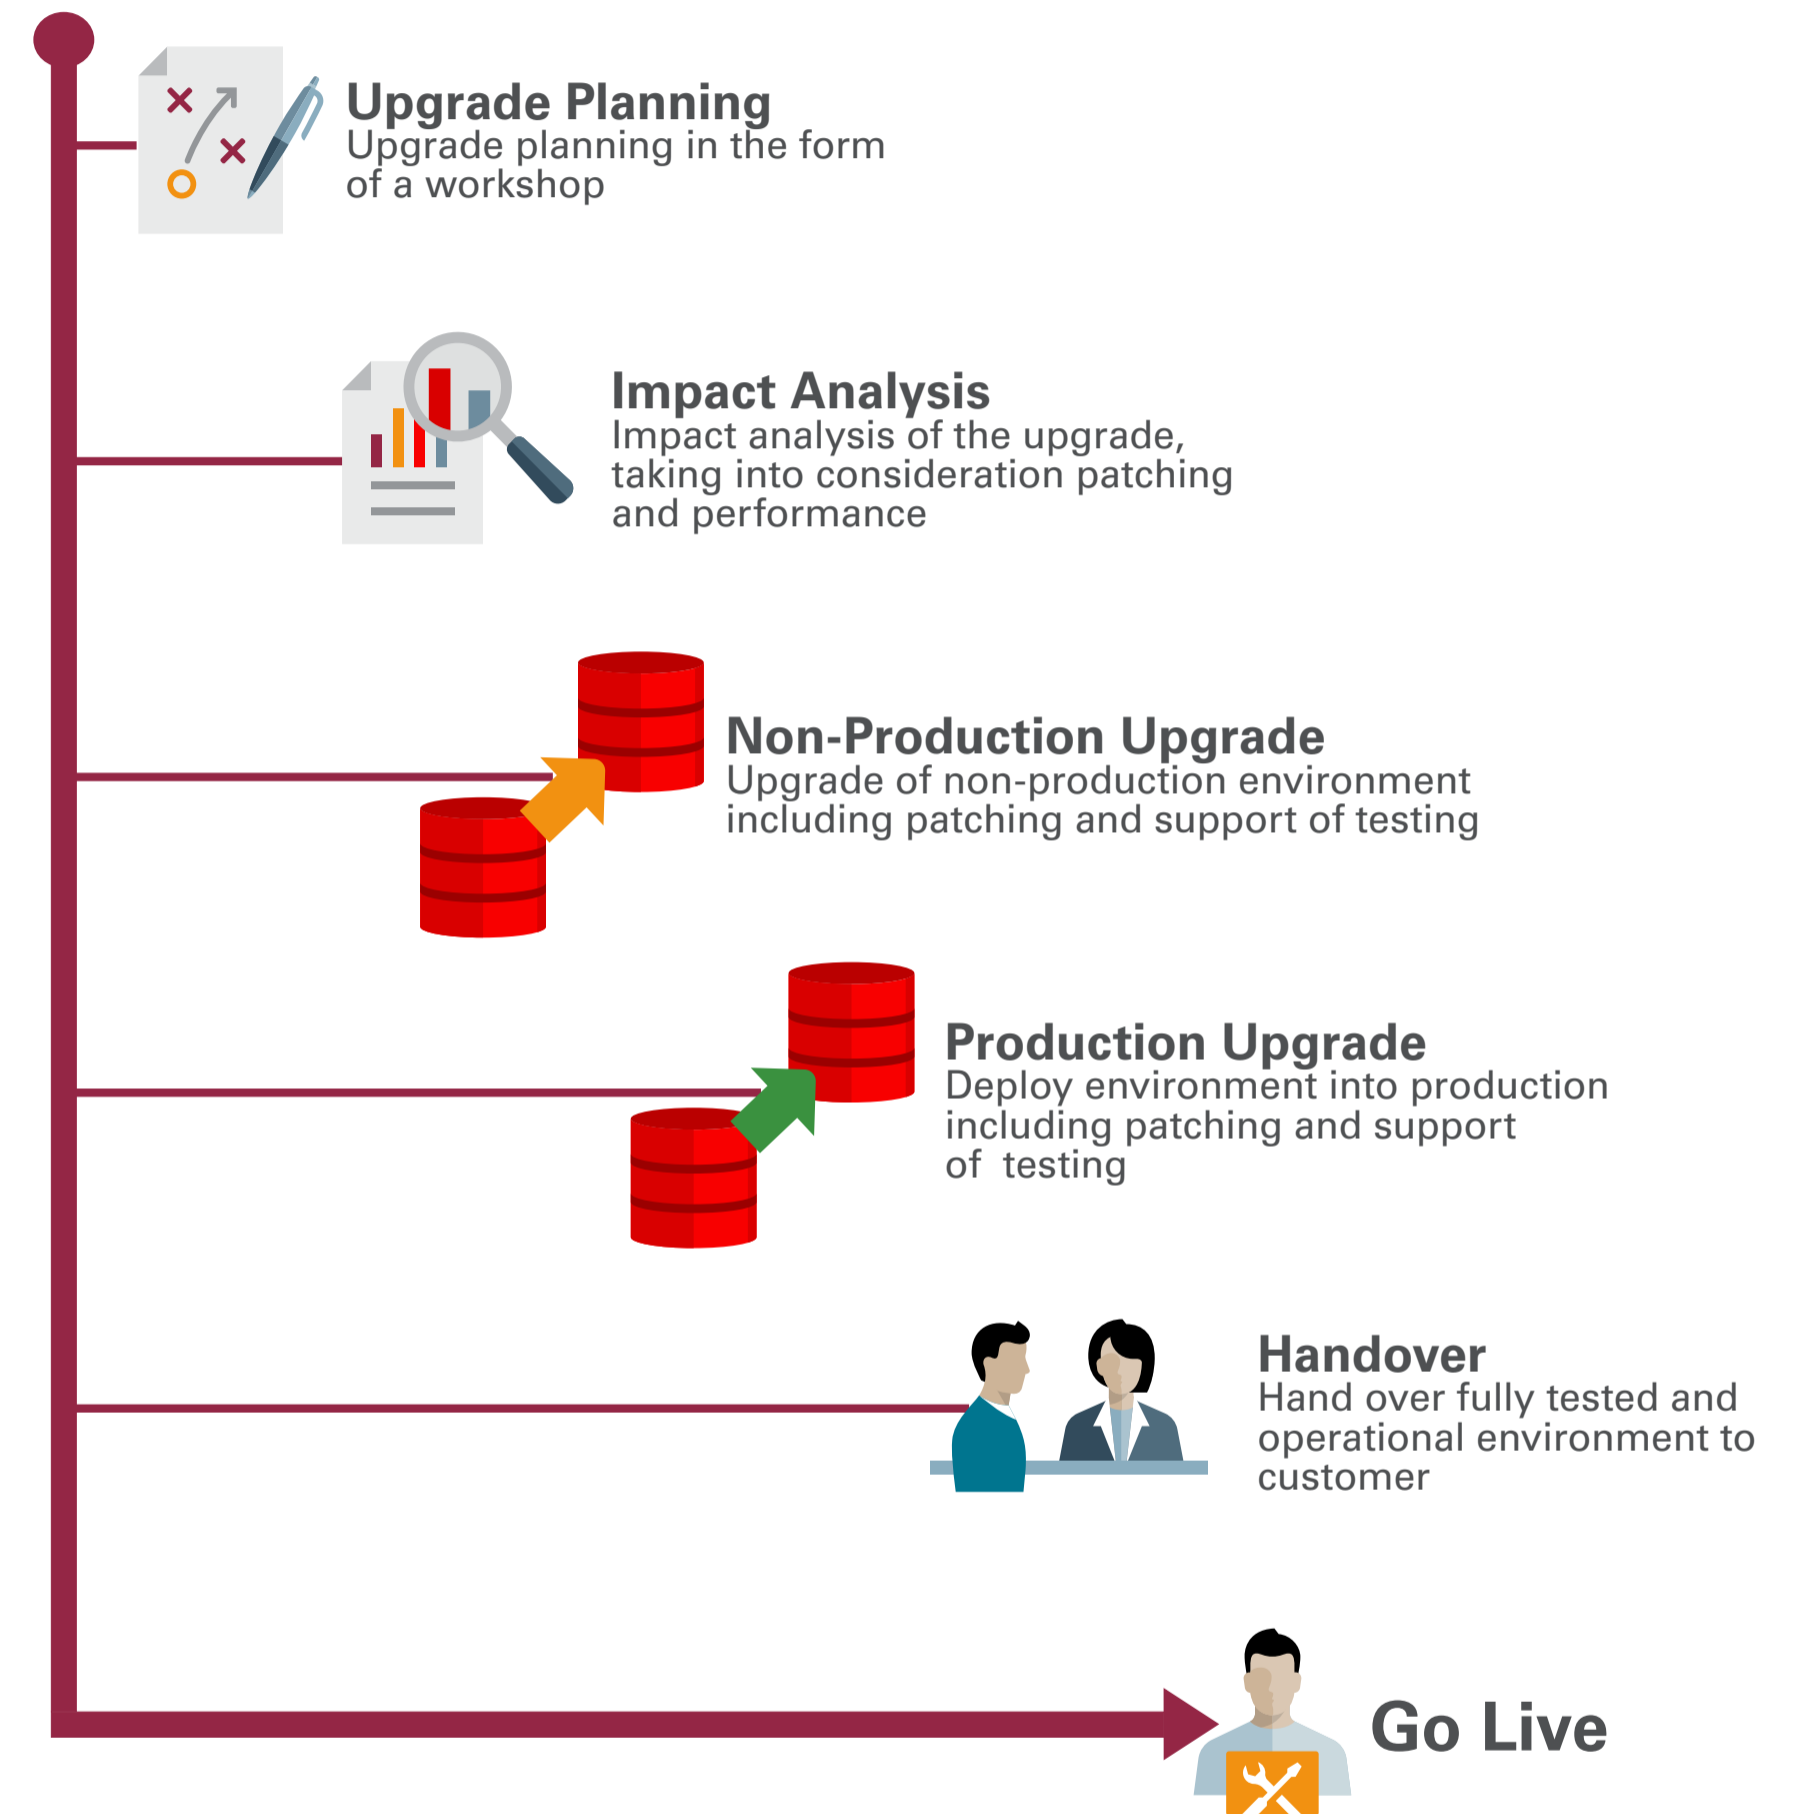

Time is running out. Waivers* will expire December 2020.

*Waivers are only applicable to the specific database licenses used to run your E-Business Suite footprint.

WE CAN HELP YOU

Modernize your database environments safely and efficiently with Oracle Advanced Customer Services fixed-fee upgrade service.
