

TFA – The Primary Diagnostic Collection Tool

Did you know?

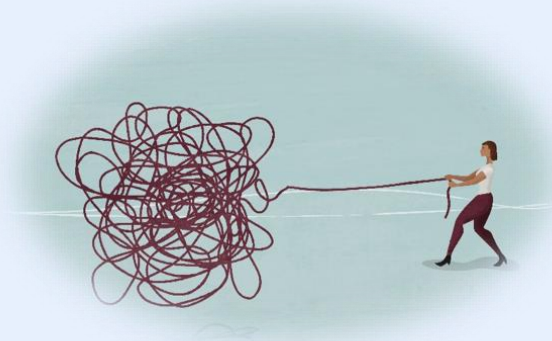

Once installed TFA starts automatically, and monitors for significant issues.

**TFA helps save time.
TFA helps save down-time!**

Navigate Database error solutions faster with TFA.

Provided by [Autonomous Health Framework \(AHF\)](#) via the single combined installer, TFA ensures you always get everything needed for a resolution.

- TFA can be setup to autonomously:
 - Detect a fault.
 - Collect problem-specific diagnostics.
 - Notify you of the fault and location of the collection.
- TFA can be run on-demand when you need it.

Download and install
the latest TFA release.
