# Training times

The table below lists the required training videos assigned to each template role and permission in the Oracle Life Sciences Clinical One Platform.

The training times provided in the table assumes the default permission set for each template study role. If you have customized the permissions for your study roles, the training duration may increase or decrease based on your selected permissions. Clinical One restricts access to certain areas of the application until the user completes the required training videos.

You can find the training completion status for a user in Clinical One on the Users tab in Study Settings. For more information, see the [Oracle Help Center](#).
