

Oracle iLearning

Oracle iLearning is the platform for delivering and managing personalized learning to anyone, anytime, anywhere, on any device. Oracle iLearning maximizes your organizational reach with consistent, standardized global learning for employees, customers, and business partners.

KEY FEATURES

Features you expect, scalability that you need:

- Self guided registration
- Catalog search and browse
- Certification and compliance management
- Approval based enrollment
- Multiple language translations
- Competency management
- Multiple domains for security and branding
- Collaborative environment
- Assessments
- eCommerce
- Email notification
- Web services for integration with other systems
- Flexible resource management
- Business, marketing, executive, manager, and learner specific reports

Oracle iLearning - A Complete Enterprise Learning Solution

Oracle iLearning is designed to provide both employee performance improvement as well as for-profit revenue generation:

- **Ease of use:** Search and browse for learning within your own personal learning catalog. View e-learning and training history, write reviews for your fellow learners and evaluate your training - all done in a simple and easy to use environment.
- **Collaboration:** Once you are enrolled in a class, you can access the information you need for your learning including e-learning, learner generated content and any chats and forums related to the class.
- **Social Learning:** Contact your fellow learners using any number of social sites, upload your own material, and recommend courses to others.
- **Mobile Learning:** Use iLearning on your PC, tablet or smartphone (Android and Apple iOS).
- **Personalization:** Create sites and sub-sites to provide a unique look and feel for different user communities or organizations.
- **Efficient administration:** All types of training can be managed in one central catalog with fine grained access control for administrators.
- **Flexible and scalable:** Oracle iLearning provides eCommerce capabilities for customers who run a for-profit training business as well as training for the internal workforce. Oracle iLearning is just as well suited for a small organization with one hundred people as it is for managing training for several million.

KEY BENEFITS

Oracle iLearning provides the following performance-based benefits:

- Provide blended learning management for training methods like instructor-led, seminars, and self-study training
- Allows self-registration, or administration-guided registration for site access
- Ability to create catalogs specific to the learner organization complete with a robust course search engine and course bookmarks
- Built-in discussion forums, chats and interaction through social sites offer efficient learning and collaboration

Oracle iLearning also provides the following technology-based benefits:

- Flexible deployment in either hosted or installed model
- Scales gracefully as business needs grow
- Web Services provide flexible integration with other systems
- Conforms to industry standards: AICC, IMS, and SCORM

Extending Learning Beyond Employees

Today, educating the extended enterprise, including customers, partners, contingent workers, and job applicants, is often required for staying competitive. Your entire extended enterprise can take advantage of self-registration and self-service access to learning and one-stop administration, both of which lower your costs by automating catalog distribution and enrollment.

Oracle iLearning serves your customers, partners, contingent workers, and applicants, as well as your own employees.
