

# Oracle Software Enhancement Service for Oracle Entitlements Server 11gR2

## ORACLE® Advanced Customer Services

### KEY BENEFITS

- Enhanced functionality and additional security capabilities
- Better control through enhanced monitoring and reporting
- Ability to address customizations and new security capabilities

### KEY FEATURES

- Improved monitoring, reporting, and statistics
- Redesigned user interface
- Support of new security capabilities including RESTful API security and Apache Tomcat 9 security
- Frequent releases of additional features

### SUPPORTED TECHNOLOGY

- Oracle Entitlements Server (OES) 11gR2

Oracle Advanced Customer Services offers exclusive customized features and functionality for Oracle Entitlements Server (OES) 11gR2, which are not included or planned for the standard product roadmap. This service provides enhanced software functionality to help you protect and increase the value you gain from this product.

### Exclusive Access to Additional Features and Functionality

Oracle Entitlements Server (OES) is a standards-based, policy-driven, security solution that provides real time, fine-grained authorization in application, Service-Oriented Architecture (SOA), and database environments.

For customers with complex and demanding security requirements, it can be crucial to expand the functionality of this software to encompass specialized security requirements, additional interoperability features, and gain better reporting and control.

Oracle Software Enhancement Service for OES 11gR2 provides:

- Access to exclusive customized features and functionality that are not available with standard OES 11gR2, such as:
  - Improved OES 11gR2 monitoring and statistics, including a redesigned user interface, with enhanced metadata reporting
  - Support for new security capabilities, including RESTful API security, and Apache Tomcat 9 security
- All architectural changes necessary to make these and future enhancements available to you
- Future customized enhancements that are not part of the standard product roadmap
- Enhancements will be fully covered by your Oracle Premier Support Contract

Further custom features and functionality will be evaluated on an ongoing basis, and exclusive updates will be made available to subscribers of this service. Subscribers can nominate custom enhancement requests by submitting them to Oracle for consideration.

Oracle Software Enhancement Service for OES 11gR2 can be purchased as an annual service subscription.

Make the most of your investment in OES 11gR2 by gaining access to exclusive features and functionality above and beyond the standard product scope.
