

Oracle Consulting Migration for Oracle Database

Oracle Consulting Migration for Oracle Database is an end to end migration service built on industry expertise, best practices and automation to migrate any number of databases to 12c. Whether you are moving to another platform, attempting consolidation, technology refresh or simple upgrade, this service delivers greater agility, reduced cost and reduced risk with minimal business impact.

KEY FEATURES

- Customer specific migration strategy
- Complete end to end migration service
- Comprehensive pre migration analysis and post migration validation
- Alignment of your 12c database functionality and core features with business goals
- Oracle Consulting database 12c Migration Tools such as end-to-end automation allow you to minimize the risk, downtime and increase the speed in migration

KEY BENEFITS

- Leverages Oracle expertise and best practices to identify common challenges for your migration
- Identifies areas of technical risk before a migration begins and resolves immediate issues and concerns
- Simpler, faster and less error prone automated migration approach
- Repeatable Migration process reducing risk and downtime

FROM ORACLE CONSULTING

- Oracle Consulting Consolidation for Oracle Database Multitenant
- Oracle Consulting Implementation for Oracle Database In-Memory
- Oracle Consulting Assessment for Oracle Database Performance

Oracle Database Migration Service

Using our proven process, methodology and automation for simpler faster and less error prone migrations, Oracle experts will safely migrate and upgrade your existing Oracle database environment to your new 12c database architecture. Oracle consultants employ proven best practices to help ensure the integrity of your data and applications throughout the migration project. The solution is then thoroughly tested to ensure that data access, performance, and integrity requirements are met upon migration completion. Finally, a Migration Report, detailing the specifics of the migration, is provided to assist in maintaining accurate documentation of your environment.

Oracle Consulting offers four service options to fit both business and budgetary requirements.

Service Type	Number of Databases
Rapid Start Service	1 average complexity (less than 5 TB, 10 thousand objects, no replication)
Small Migration Service	Up to 50 databases, single line of business, single geography
Midrange Migration Service	Up to 500 databases, single line of business, multiple geography's
Enterprise Migration Service	More than 500 databases, multiple lines of business, multiple geographies

- Oracle Consulting Rapid Start for Oracle Database Flex Cluster and Flex ASM
- Oracle Consulting Rapid Start for Oracle Data Guard
- Oracle Consulting Rapid Start for Oracle Database Migration
- Oracle Consulting Upgrade for Oracle WebLogic
