

Oracle Consulting Rapid Start for Oracle Data Visualization Cloud Service

Making rich, powerful visual analytics accessible to all your business users just got simpler and faster with Oracle Data Visualization Cloud Service. Are you looking for expert guidance with helping people at all levels of your organization blend and analyze enterprise, personal and Big Data in just a few clicks to uncover hidden patterns and actionable insights? Oracle Consulting experts can help with their industry experience, leading practices and proven methodology. The Oracle Consulting Rapid Start for Oracle Data Visualization Cloud Service was designed to provide you with an accelerated deployment of the Oracle Data Visualization Cloud Service tailored to your unique data needs. This service provides your organization with faster time to value, reduced cost and reduced risk.

KEY FEATURES

- Custom data visualization strategy and design
- Prototype of Oracle Data Visualization Cloud Service based on your requirements
- Demonstration of prototype with your sample data

KEY BENEFITS

- Expert experience for data visualization
- Accelerate your project and reduce risk through leading practices and proven methodology
- Knowledge sharing with your IT team to prepare them for next phase implementation

Put a New Visual Face on Your Data

Oracle Consulting experts conduct a workshop to identify requirements and review your unique business goals for data visualization. Oracle Consulting will leverage Oracle leading practices and industry experience while collaborating with your IT and business teams to develop a prototype design for combining enterprise, personal and Big Data sources and visualization of that data based on your requirements. This design forms the foundation for the Oracle Data Visualization Cloud Service prototype. The prototype is developed in the Oracle Data Visualization Cloud Service and loaded with your sample data. This service is concluded with a demonstration of the prototype in your Oracle Data Visualization Cloud Service environment and review of recommendations for next steps.

Key deliverables:

- Workshop covering and overview of Oracle Data Visualization Cloud Service
- Customer specific prototype design including mash-up analysis and visual stories based on Oracle leading practices and industry experience
- Prototype with your sample data
- Demonstrate the prototype
- Engagement Summary Report summarizing key findings, recommendations and configuration settings

How We Are Different

The Oracle Consulting team is focused exclusively on Oracle Technologies, and
