Oracle's Primavera P6 Enterprise Project Portfolio Management Enablement Services

The Oracle Construction and Engineering Professional Services organization offers a comprehensive enablement program for the suite of Oracle's Primavera products. The offering supports a smooth transition to the new software for users, while allowing them to become self-sufficient within the applications. Customized training programs utilize experienced instructors to lead interactive courses based on a proven curriculum supplemented with hands-on exercises and knowledge-transfer sessions.

The Oracle Construction and Engineering Professional Services training team will analyze the specific enablement requirements and create a detailed education plan based on the audience, project needs, and schedule.

STANDARD COURSES FOR ORACLE'S PRIMAVERA P6 ENTERPRISE PROJECT PORTFOLIO MANAGEMENT

The following standard courses form the basis of our Primavera P6 Enterprise Project Portfolio Management (P6 EPPM) Enablement Services and can be customized from your logos to your processes to sample data to meet the needs of your end users. In addition to these standard courses, Professional Services can leverage your investment in Oracle User Productivity Kit (UPK) to create customized process documentation as a foundation for self-guided on-demand learning for your end users.

CLASS NAME	CLASS DESCRIPTION	DURATION DAYS
Primavera P6 EPPM Fundamentals	This Primavera P6 Fundamentals training leads you through the entire project life cycle, from planning to execution. Engage in hands-on exercises and case studies that apply the features and functionality of the software to real-world situations.	3
Primavera P6 EPPM Advanced	This Primavera P6 Advanced training teaches you about advanced resource management and project management topics.	2

ORACLE®

Primavera P6 EPPM Administration	The two-day course covers how to build enterprise data structures and configure settings to support an enterprise implementation. Topics include how to: build and manage the Enterprise Project Structure and Organizational Breakdown Structure; add users and configure security; set enterprise data and default settings; and support project management processes.	2

PRIMAVERA P6 ENTERPRISE PROJECT PORTFOLIO MANAGEMENT FUNDAMENTALS

This Primavera P6 EPPM Fundamentals training teaches you how to create a project, add activities and relationships, assign resources, adjust the project plan to account for schedule delays and over allocated resources, and analyze portfolios. You'll also learn how to customize the Personal Workspace and the Project Workspace to monitor project progress and communicate with team members.

Learn To:

- Create a project

- Add activities

- Create relationships

- Assign and analyze resources

- Analyze project performance

- Execute and control the project

- Customize dashboards and the Project Workspace

Benefits to You

Enrolling in this course will help you understand Primavera P6 EPPM's basic features and functionality so you can apply them to your organization's project management processes. You'll develop the skills to manage projects on time and within budget to ensure optimal outcomes from capital and resource investments.

PRIMAVERA P6 ENTERPRISE PROJECT PORTFOLIO MANAGEMENT ADVANCED

This Primavera P6 EPPM Advanced training gives you hands-on experience with advanced resource management and project management in Primavera P6, Primavera's Web-based project management application. Topics include: creating resource teams and role teams, high-level resource planning, resource leveling, viewing and analyzing portfolio performance, assessing return on investment, capacity planning and waterline analysis, and earned value analysis.

Learn To:

- Use high-level resource planning

- Use resource leveling

- Staff resource requests

Engage the Primavera Experts

Get the most out of your Primavera investment - and quickly- by engaging the experts:

- Leading Expertise: Oracle's own experts providing thought leadership for every Primavera solution.

- Implementation Experience: Primavera training consultants bring practical experience to the classroom.

- Create resource teams and role teams

- Assess portfolio performance

- View return-on-investment data

- Conduct waterline analysis

- Use advanced scheduling techniques

Benefits to You

Enrolling in this course will help you understand Primavera P6 EPPM's resource and portfolio functionality so you can make improved project management decisions. You'll learn how to manage resources effectively to maximize investment; you'll also develop the skills to select and prioritize projects to align strategy, execution, and results.

PRIMAVERA P6 ENTERPRISE PROJECT PORTFOLIO MANAGEMENT ADMINISTRATION
