Open-source virtualization software with vibrant community participation, combined with Oracle development and support.

## See why customers love VirtualBox!

### Grid® for Virtual Desktop Infrastructure (VDI)

\*The Grid® Report for Virtual Desktop Infrastructure (VDI) Winter 2022 is based off of scores calculated using the G2 Grid® algorithms from reviews collected through November 23, 2021.

## Review Star Breakdown

of users rate Oracle VirtualBox **4.0 or 5.0 stars**

## Satisfaction Score

**VirtualBox is one of the best solutions for virtualized environments.** It is an open source software and a powerful tool to test the deployment of any new operating system and applications. In addition, it works on virtually all operating systems...

- G2 Reviewer, 4.5 stars

## Product Direction

**As its name, Virtual Box, Virtualizes almost all operating systems.** It has a great feature of switching mouse and keyboard between the main OS and the virtual OS. Unlike other Virtual machines which cost very high, Virtual Box is free to download and can be used in any operating system.

- G2 Reviewer, 4.5 stars

## Ease of Setup

**What I like the most about Virtual Box is being able to create several virtual machines with different operating systems within my host computer.** It is very easy to use and it is also free. It has nothing to envy to other solutions like VmWare. In addition, it is possible to create several virtual machines with different operating systems, either for practice or tests, or to have them in production running in a real way.

- G2 Reviewer, 5.0 stars

## Likely to Recommend

**I like how easy it is to fire up the machine and go about my testing procedures for our software.** The VirtualBox behaves exactly as a Windows machine on my mac, and it saves me from having to purchase windows hardware to carry out my tests.

- G2 Reviewer, Computer Software industry, 5.0 stars
