**Oracle CPQ Cloud Service Pricing
CPQ Subscription Services**

Support is bundled into each subscription license and not ordered separately.

Initial quotes for CPQ subscriptions require a minimum three year contract term. Approval is required for terms other than three years.

Note that limits are no longer placed on: Sku's, data tables, documents, languages, currencies, & Processes. Additionally, the High Availability option that used to be sold separately now is included, but it requires customers to request this functionality specifically. It is not automatically requisitioned.

75.00	Monthly	Hosted Named User	-	B75734
85.00	Monthly	Hosted Named User	-	B75735

Definitions

Channel User: is defined as a Hosted Named User associated with a partner organization that is an authorized distributor or reseller. Channel Users are often provided UI layouts, functionality (channel pricing, access to channel-specific parts and configurations), and output documents, that differ from internal users. You may delegate the management of a partner organization's Channel Users to a super user at the Partner Organization.

10 External Connector Users: is defined as the maximum of ten (10) Channel Users accessing the Oracle CPQ program through use of the CPQ Connector Cloud Service for Salesforce.

Hosted Named User: is defined as an individual authorized by You to access the hosted service, regardless of whether the individual is actively accessing the hosted service at any given time.

Instance: is defined as a single database instance of Oracle CPQ Cloud Service, including management and administrative capabilities, business rules, process management and reporting, for the service within that instance. For purpose of Oracle CPQ Cloud Service, production, test and development are each considered distinct Instances. References to the term "environment" within these Service Descriptions shall be deemed to refer to "Instance". The "Services Environment" as defined in the Agreement may be composed of one or more Instances.

1,000 Interactions: is defined as the maximum of one thousand (1,000) interactions per each month of the Services Period.

For the purposes of CPQ E-Commerce Interactions, and CPQ External API Access, an interaction is a single access of the CPQ Cloud platform from an external system, anonymous user or registered user.

VPN Connection: is defined as each Oracle virtual private network connection installed between the Oracle data center and Customer.
