Accelerate ERP Modernization with Cloud Migration

Modern, cloud-based ERP solutions deliver what growing companies need—greater agility and efficiency at a lower cost. This is why future-looking Oracle E-Business Suite (EBS), PeopleSoft, and JD Edwards (JDE) customers are moving to Oracle ERP Cloud.

Why Modernize? Why Cloud? Why Now with Oracle ERP Cloud?
Scroll to find out

Why Modernize?

1 On-premises applications need regular upgrades and maintenance. The upgrade cycle will eat up a significant amount of time and resources.
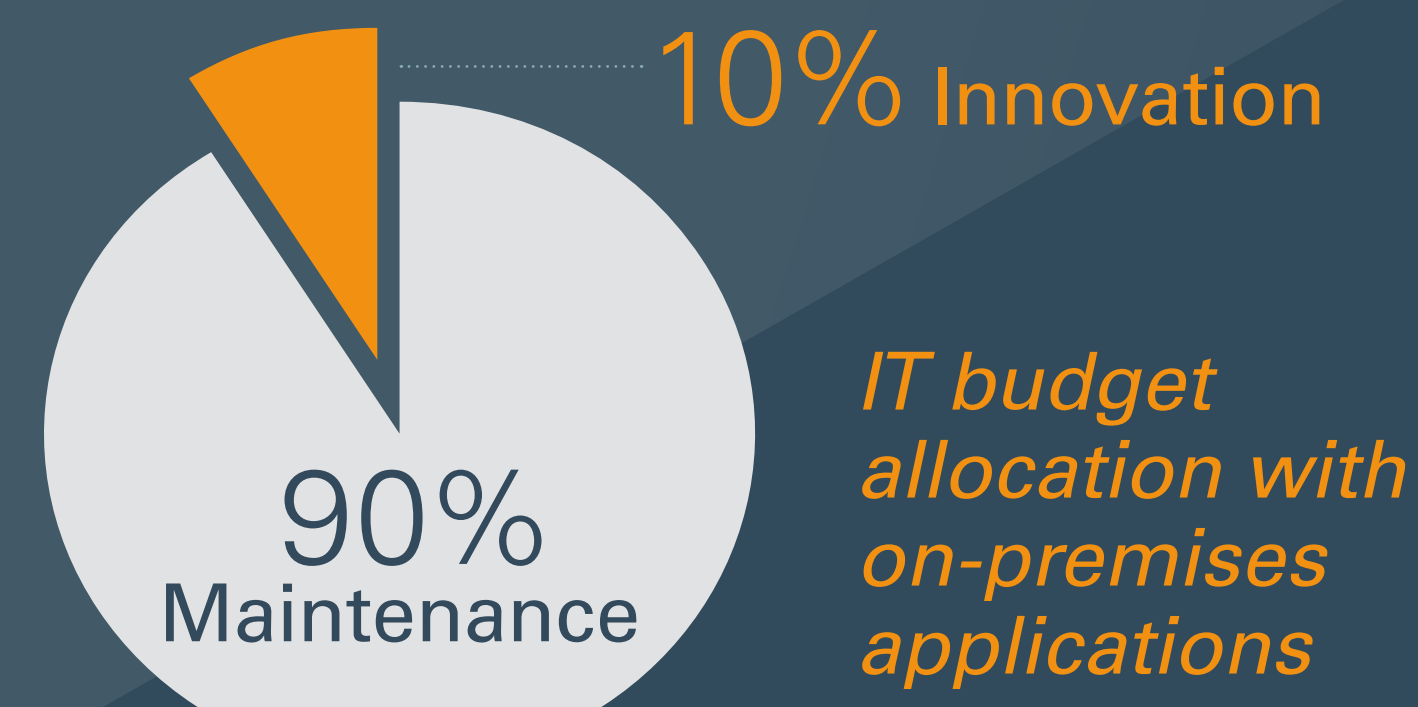

So what happens? Upgrades are pushed to the back-burner.

2/3 of SMBs are running outdated versions of their ERP software.

2 Web-based applications can only operate with an active internet connection

Are limited by
- scalability
- availability

3 Cloud-based applications free up time and money for business innovation.

10% Innovation

IT budget allocation with on-premises applications

90% Maintenance

"The 8 Ways Version-Locked ERP Damages Your Business," ERP Hub Group, Brightree, August 5, 2015, erp1.wordpress.com/

> APN Outdoor Ltd. used Oracle's legacy JD Edwards financial system and built interfaces with 3rd party solutions. This became expensive and complicated to support. They needed a scalable financial platform to support future business growth.

Why Now?

To stay ahead of the competition, you need more. You need embedded best practices, up-to-date functionality, and the latest transformative technologies.

Technologies to Transform How Finance Operates

New technologies are changing how finance operates: AI, machine learning, chatbots, process automation, and more. When you migrate to a cloud-based ERP, you can access these features to gain efficiency and improve decision-making.
| Intelligent automation to automate financial processes | Secure transactions with blockchain | Machine learning for predictive analytics | Easier, human interactions (chatbots, voice) | AI-enabled planning & decision making |

> ClearView Wealth's finance staff used to have to manually collate reports with Oracle PeopleSoft. It was time-consuming and difficult to provide insight into business performance, especially in a constantly changing industry.

Modern Cloud Financials = Foundation of Growth

To support a period of rapid growth (10 acquisitions which doubled company revenues), Irving Materials, Inc. migrated from Oracle EBS to Oracle ERP Cloud.

> We were very excited about Oracle ERP Cloud because it brought consistency to the table. The terminology was very similar to what we knew from Oracle E-Business Suite 11i, making the transition much easier than we anticipated.
> — Chad Kelley, Controller, Irving Materials, Inc.

Why Now with Oracle ERP Cloud?

Future-Ready ERP

Oracle's next-generation ERP cloud suite is the market's most comprehensive and scalable and is ranked the market leader by analysts. Oracle ERP Cloud is proven, with thousands of customers across every ERP business process.

| The only ERP Cloud built on machine learning | Recognized market leader | Most comprehensive, scalable ERP cloud suite | Only one that delivers best-in-class ERP capabilities |

> ClearView Wealth saved two full-time equivalents in the collation of a large number of statutory and financial reports, such as profit and loss statements for the life insurance business, by using Oracle ERP Cloud.
