

Active Data Guard – Switchover Demo on Bare Metal Cloud

- Steady State
 - Single Instance Data Guard between Availability Domains
 - Maximum Availability – Zero Data Loss Data Guard Configuration
 - Swingbench OLTP Workload
 - **2000 Txn/sec on Primary**
 - **3800 Queries on Standby**

Active Data Guard – Switchover Demo on Bare Metal Cloud

- Switchover during Planned Maintenance
- Switchover Result
 - Only **14 seconds outage** for read/write OLTP workload
 - Only **5 seconds outage** for read-only Queries workload
- Fast Switchovers with low downtime
