

ORACLE CRM ON DEMAND SINGLE-TENANT STANDARD EDITION

ORACLE® CRM ON DEMAND

THE WORLD'S MOST COMPREHENSIVE CRM ON DEMAND SOLUTION

- Easy to use for high user adoption
- Deploys quickly with little IT investment
- Embedded marketing, sales and service best practices
- Powerful and easy to use real-time and historical analytics
- Works online or offline

Oracle provides organizations with an unparalleled choice of deployment options. Oracle CRM On Demand Single-Tenant Standard Edition provides each customer with a dedicated Oracle CRM On Demand database, application server, and analytics server while still offering companies the benefits of Oracle's shared infrastructure for add-on modules such as Oracle CRM On Demand Marketing and Mobile Sales Access. This solution is ideal for enterprise organizations requiring an on-demand CRM solution with dedicated servers.

Optimized Performance and Scalability

Because Oracle CRM On Demand Single-Tenant Standard Edition provides each customer with its own dedicated Oracle CRM On Demand database, application server, and analytics server, you benefit from an on-demand architecture that can be more readily adapted to meet your unique business processes and data needs. Capacity can be easily adjusted to meet the changing processing and performance demands of large enterprise organizations. Oracle experts work with you to better understand your requirements and tune the business process and data layers of your dedicated CRM On Demand instance for optimal performance. In addition, you can leverage Oracle's shared infrastructure add-on modules such as Oracle CRM On Demand Marketing to execute high volume email marketing campaigns Mobile Sales Access to drive productivity. These additional offerings deliver large-scale capabilities previously out of reach for many companies due to the lengthy deployment time, high cost, and complexity involved with setting up the required infrastructure in-house.

Dedicated Instance

Oracle CRM On Demand Single-Tenant Standard Edition gives you an additional option for adhering to regulatory constraints. Since each Single-Tenant Standard Edition customer receives its own dedicated Oracle CRM On Demand database server, your information is stored separately from other organizations. Paired with Oracle's world-class Data Centers which hosts Oracle applications for Oracle On Demand end users, including government, healthcare and banking entities – this option is optimal for those companies that require the highest levels of regulatory or internal compliance.

KEY BENEFITS

- Optimized performance tuned to your specific business needs
- Scalable to meet changing enterprise demands
- Dedicated infrastructure to meet regulatory or internal compliance requirements.

Security Options

Oracle CRM On Demand Single-Tenant Standard Edition gives you the opportunity to deploy additional security options. These include:

- Virtual Private Network to ensure users have authenticated to your network before accessing CRM On Demand
- Customer Provided Network to route traffic over a private network instead of the internet
- Database Vault to provide an additional layer of protection to your data

Oracle CRM On Demand Single-Tenant also gives you the option to conduct an annual security assessment. In addition, you have the option for 256-bit encryption if standard encryption is not secure enough for you.
